EDITOR'S LETTER

It gives us great pleasure to present to you the August | September 2022 edition of the AGRIFOODSA Magazine.

In this 80-page edition we have on offer more than 87 advertisers spanning 50 categories.

Many of these advertisers were recently seen at Sakeliga KragDag 2022, of which AGRIFOODSA are proud media sponsors. The event took place between 11-13 August 2022 at the usual venue, the Diamantvallei Estate near Cullinan, and well over 26,000 guests attended. To learn more about what went down and what's to come, visit <https://www.kragdag.co.za/>.

Our cover featured advertiser for this edition is Reinke South Africa. Richard F. Reinke, founder of Reinke Manufacturing Co., Inc., was a pioneer in the irrigation industry. Many of his innovations he conceived have become standards for the industry throughout the world. Today, most mechanized irrigation systems incorporate many of the concepts, inventions and patents he introduced during his lifetime. So, the next time you see a centre pivot effortlessly moving around the field, you can thank Richard Reinke for that.

In this day and age, Reinke offers a selection of 5 different types of water pipes, along with several different span lengths and diameters for every custom water application condition. With years of experience working with alternative materials, they will provide you with knowledge and expertise to ensure the best pipe material is selected to meet your irrigation needs. To find out more about their products and services, visit www.reinke.com.

Our AGRIFOODSA Newsletter, featuring our digital magazine, informative articles, exciting competitions and more, will be out soon. To sign up to our newsletter, contact info@agrifoodsa.info.

Remember to head on over to our AFSA Facebook page (www.facebook.com/agrifoodsa) for more competitions, funnies, Advertiser Showcases and recipes, as well as helpful and informative articles uploaded on the daily.

Lastly, our AGRIFOODSA.INFO website (www.agrifoodsa.info) is in the last phase of its complete redesign with selected users already able to use the new interphase. The new website features the most comprehensive directory, marketplace, news platform and online community to the South African agricultural and secondary industries. Find all of the biggest names nationally and all the best kept secrets locally, now available in one place. Announcements and exciting offers on all of our socials.

Keep well,

Chantell de Bruin

The Council regulates the occupations of fresh produce, export and livestock agents and maintain and enhance the status and dignity of those occupations and the integrity of persons practicing those occupations, according to Section 9, Agricultural Produce Agents Act, 12 of 1992.

WHAT WE DO?

Fresh Produce Agents

Who acts on behalf of a principal, by selling the principal's produce to buyers such as hawkers, wholesalers and retailers. Most agents operate on fresh produce markets. Prices of fresh produce is not predetermined but discovered in terms of the supply and demand principle.

Livestock Agents

Livestock agents act on behalf of a principal and their income is based on commission or a fee, paid by the producer for services rendered. Section 16 (1)(b) of the APA Act indicates that no person shall perform any act as a livestock agent unless he or she is registered with APAC.

Export Agents

Export agents act on behalf of producers and their income is based on commission or a fee, paid by the producer for services rendered. Section 16 (1)(a) of the APA Act indicates that no person shall perform any act as an export agent unless he or she is registered with APAC. Export agents can voluntarily register with the Fresh Produce Exporters Forum (FPEF).

Agricultural training with a difference

AGRIskills
TRANSFER (Pty) Ltd

The Atom Plus effervescent tablet is nature's most effective and safest disinfectant and when dissolved in water, creates a solution of Hypochlorous Acid (HOCL) for up to 21 days at a stable Ph of 6.2 to 6.8.

- HOCL is nature's most effective disinfectant and is safe for humans, disinfecting public areas, food preparation areas and more recently, for a number of agricultural applications to treat bacterial and fungal infections.
- Most importantly, HOCL has little or no impact on the environment, plants and or soils because of its near neutral PH.
- HOCL is listed on the N list of environmentally approved products of the Environmental Protection Agency in the USA.

MISDAADVOORKOMING EN PLAASBESTUUR OP DIE PLATTELAND DEUR GEVORDERDE TEGNOLOGIE EN GEMEENSKAPSONTWIKKELING

DEEL 2

HIERDIE IS DIE TWEDE SKRYWE VAN 'N REEKS VAN SEWE SKRYWES WAT FOKUS OP DIE VOLGENDE ASPEKTE:

- **Skrywe 1:**
Inleiding tot huidige probleme en 'n kort beskrywing waartoe tegnologie kan bydra.
- **Skrywe 2:**
Inleiding tot aspekte van tegnologie om plaasbestuur en -veiligheid drasties te kan verbeter.
- **Skrywe 3:**
Gevorderde videotegnologie wat 'n groot impak kan maak op plaaslike veiligheid; voorkoming van vee-en ander diefstal.
- **Skrywe 4:**
Ontplooiing van videotegnologie vir uiters effektiewe plaasbestuur.
- **Skrywe 5:**
Effektiewe bestuur kan net gedoen word aan wat gemeet kan word. Die ontplooiing van verskeie tegnologiese toepassings vir effek-tiewe plaasbestuur is dus van kardinale belang.
- **Skrywe 6:**
Die belangrike voorlegging van inligting en die operasionele belangrikheid van videomonitoring deur beheer-kamerstelsels.
- **Skrywe 7:**
Opsomming van die kernaspekte van die vorige skrywes en die belangrikheid van gemeenskapsdeelname.

INLEIDING

Effektiewe plaas- en sekuriteitsbestuur vir boere en gemeenskappe is van uiterste belang. Dit is veral as gevolg van die geweldige styging in insetkoste, algemene sekuriteit en die effektiewe beperking tot diefstal van vee en agri-produkte soos graan, groente en vrugte wat die hoogte inskiet.

Indien gemeenskappe aanhou doen wat in die verlede gedoen is, sal dieselfde probleme herhaaldelik voorkom en drasties vererger. Voorkomende maatreëls en stelsels om proaktief en reaktief te kan optree is uiteraard van besondere belang. Dit raak dringend nodig vir die gemeenskappe om hande te vat en belangrike stappe te neem met die implementering van die nodige stelsels.

Die impak van tegnologie

Die korrekte en effektiewe aanwending van tegnologie op verskeie vlakke sal 'n baie groot impak kan maak op plaasbestuur, sekuriteit en diefstalvoorkoming, asook die algemene bestuur en beheer van die plaas.

Die regte aanwending van tegnologie kan amper alle aspekte aanspreek rakende plaasbestuur. Dit sluit in water- en energiebestuur; grondvog en grondanaliserings; bestuur van werkers, asook videooesig oor alle plaasaktiwiteite.

Seker die beste tegnologie wat gebruik kan word vir vee- en ander diefstal, is om gebruik te maak van direkte videokamera-tegnologie met direkte beeldstroming wat deur effektiewe beheerkamermonitoring gedoen word.

Videooesig

Enige dief of ander skelms, selfs werkers, word ernstig afgeskrik indien hulle weet hulle word dopgehou met videokameras wat permanent gemonitor word, Dit is ook 'n oor bewys dat videokameras en die monitoring daarvan 'n groot impak het op die drastiese verlaging in diefstal en 'n groot verbetering in menslike veiligheid.

Die aktiewe gemoniteerde videostelsels het 'n groot invloed op die voorkoming van kriminele bedrywighede en arrestasies van misdadigers. Alle verdagte voertuie wat gesteel of by gewapende rowe betrokke was by enige plek in die land, sal dadelik herken word. Alarm sal dadelik gemaak word indien so 'n voertuig 'n spesifieke gemeenskap inbeweeg. Gemeenskappe self kan ook verdagte voertuie op die stelsel registreer. Indien so 'n voertuig by enige kamera verbybeweeg word 'n dringende alarm gemaak waarop die gemeenskap dadelik kan reageer.

Mense met honde, perde en verdagte vee wat by kameras verbybeweeg, asook enige ander moontlike verdagte situasies wat op die kameras in die beheerkamer raakgesien word, word dadelik aan die gemeenskap bekendgestel.

Oorhoofse videooesigtegnologie.

Daar is hoofsaaklik ses aspekte wat 'n videokamerastelsel suksesvol maak.

Developing future farmers in SA...just a click away!

- ❖ h Volledige ondersoek op die perseel of plase.
- ❖ h Volledige tabel en ingenieursontwerpe, met koste ingesluit.
- ❖ Kameras van hoogstaande gehalte. Die aankoopprys word gou vergeet sodra die stelsel uitstekend werk. Goedkoop koop is duur koop.
- ❖ SDE maak nooit gebruik van selfoonnetwerke om die kamera-inligting na beheerkamers toe te stuur nie. h Volledige mikrogolffnetwerk word ontwerp en geïmplementeer om seker te maak die data- en video-strooming is veilig en betroubaar.
- ❖ Geen stelsel is effektief indien dit nie 24/7 gemonitor word nie. Die implementering van betroubare toerusting in die beheerkamer en goed opgeleide personeel sal verseker dat h betroubare pro- en reaktiewe monitoring gedoen word.
- ❖ h Aktiewe en goed opgeleide gemeenskapsgroep om vinnig op te tree wanneer gevalle gerapporteer word.

Die vinnige saamgooi van videotoesigstelsels wat êrens deur h familielid gedoen word om koste te spaar, het herhaaldelik bewys dat baie aspekte wat h professionele monitoringbeheerkamer kan bied baie meer akkuraat, proaktief en reaktief is.

Betroubare diensverskaffers.

Dit is hier waar baie stelsels faal en nie betroubaar is nie. SDE

is al verskeie kere deur boeregemeenskappe versoek om reeds geïnstalleerde stelsels wat nie werk nie as gevolg van swak ontwerp en swak ontplooiing, te herstel tot h baie betroubare vlak. En dit natuurlik met onnodige addisionele koste.

- ❖ Die aankoopprys moet nie die enigste dryfveer wees vir besluitneming om sulke belangrike stelsels te installeer nie.
- ❖ Daar word voortdurend bevind dat boerderygemeenskappe huiwerig is om nuwe en gevorderde tegnologie te gebruik. Daar is verskeie redes hiervoor: van gemeenskappe wat nie vertrou is met tegnologie nie en daarvan wil wegbly, tot die gebrek aan vertroue dat tegnologie nie betroubaar is nie.
- ❖ Dit is hier waar dit baie belangrik is om betroubare diensverskaffers te gebruik wat stelsels en toerusting van hoogstaande gehalte installeer. Daar word gereeld gesien dat onkoste meestal die enigste dryfveer is vir besluitneming oor aankope en installering van hierdie stelsels. Dit is belangrik om te weet dat hierdie tegnologiese stelsels soos h ketting is met heelwat skakels. As een van die skakels nie reg ontwerp of uitvoer is nie, beïnvloed dit die betroubare werking van die hele stelsel.
- ❖ Dit is dus van groot belang om professionele diensverskaffers met professionele ingenieurs in diens te hê. Suksesvolle werkende stelsels gebeur nie deur net h klomp verskillende tegnologiese boublokke bymekaar te gooi nie. Elke stelsel het unieke uitdagings. Die inspeksie, gedetailleerde ontwerp en -voorstel is van kardinale belang voordat h stelsel geïnstalleer word. Dit kan nie net lukraak gedoen word nie.

SDE is só h maatskappy wat gebruik maak van professionele persone wat jare se ondervinding het in hierdie veld. SDE kan op enige stadium gekontak word vir meer inligting.

ECOTUNING ZA

• OPTIMIZE • BOOST • SAVE •

Tuning and ECU remapping is not only used to purely enhance performance. Optimizing fuel consumption has become more relevant in industries where fuel costs are continually rising.

BENEFITS OF ECOTUNING YOUR VEHICLE:

- Increase horsepower and torque instantly.
- Increase ground speed.
- Reduce fuel consumption and improve fuel economy.
- Optimize torque curve with more torque at lower RPM.
- Reduce operating temperatures, prolonging the life of your motor.
- Increase yield per acre and increase productivity.

Eco Tuning differs from traditional performance modification in that the engine's efficiency is the priority. Optimizing software to increase torque at a lower RPM for lower revs which will result in lower fuel consumption.

OTHER SOLUTIONS AVAILABLE:

- Performance tuning • EcoTuning • DPF delete • EGR delete
- DTC delete • Lambda Sensor/O2 removal • AdBlue Delete • SCR off

Our custom files and software are of the highest quality and are developed and tested to ensure they have the best configurations for power, fuel economy upgrade, throttle boost etc.

AVAILABLE FOR ALL MAJOR BRANDS
OF TRUCK, TRACTOR AND CARS

CARRUS FUEL SENSE

SIT GELD TERUG IN JOU SAK!

Die Carrus Fuel Sense produk is 'n omvattende brandstofbestuursoplossing. Dit fokus op akkurate toedeling van brandstof-kostes aan voertuie en toerusting en stel jou in staat om brandstofverbruik baie akkuraat te kontroleer. Hierdie akkurate en tydige inligting is ook onmiddellik beskikbaar op jou selfoon en rekenaar.

Die inligting word gestuur by Carrus Fuel Sense se Risikobeheerkamer. Deur hierdie inligting sigbaar te maak, word brandstofverbruik per uur en/of kilometer akkuraat gemeet en daar word noukeurig rekord gehou oor tyd, wat jou in staat stel om te fokus op probleem areas en waarlik brandstofkoste drasties te verminder.

KENMERKE:

- Die hele brandstofsisteem is gesluit en word slegs ontsluit deur gemagtigde tags.
- Brandstofvenkies word deurtyd elektronies gemoniteer wat jou in staat stel om dieselaflerings te kan verifieer asook daaglik te kan rekonsilieer op "brandstof-in" en "brandstof-uit".
- Alle inligting is ook beskikbaar op jou selfoon en/of tablet.

DIE VOORDELE OM CARRUS FUEL SENSE TE GEBRUIK:

- Beheer brandstofverbruik per voertuig & toerustingseenheid
- Moniteering van elke brandstoftransaksie
- Verskaffing van ouditeerbare inligting vir SARS-rebatte
- Bekamping van brandstofdiefstal
- Bekostigbaar deur besparing, en
- Die stelsel betaal homself!

Elanco

Rumensin®

TRUSTED BY GENERATIONS

WHY RUMENSIN LEADS THE WAY.

LESS DUST

Rumensin® particles are more suitable for mixing compared to the generic, which has four to five more dust particles.¹

Dust Particles

MADE IN THE USA

Rumensin is made in the USA with highly controlled manufacturing processes. The generic is made in Bulgaria.

MADE IN
USA

HIGHER DISSOLUTION RATE

Rumenin's dissolution rate in the rumen is higher than the generic according to recently published peer-reviewed studies, so with a higher dissolution rate more of the active ingredient gets released.²

MICROTRACERS®

Rumensin has Microtracers so you can do on-farm testing for Rumensin. The generic does not.

PROVEN EFFECTIVE

Rumensin is rigorously tested and backed by 400+ research studies providing proven effectiveness.

MORE COST EFFECTIVE

When you factor in the operational advantages related to particle size, solubility and manufacturing, Rumensin is the clear choice.

Contact your sales representative to learn more
or visit [TrustedByGenerations.com](https://www.TrustedByGenerations.com).

Smart TANK EXPRESS

Do it yourself tank

Engineer Designed for the Farmer!

- ✦ Zinalume Corrugated steel sheets
- ✦ Cost effective and easy to install
- ✦ Minimum ground preparation needed
- ✦ Lifespan of 20 years or longer
- ✦ Suitable for Human and animal use
- ✦ Manufactured to the highest quality standards in S.A.

Aquadam Installation

The Express tank is designed for the farmer, with farmers needs in mind, a tank easy to install himself with no special equipment needed.

All tanks higher than 2.4m must be placed on a concrete ring beam to prevent wind damage while the tank is empty.

The tank has an optional engineer designed PVC roof option as well. All this aimed at making the Express tank the easiest and most cost effective high quality water storage solutions available to all farmers.

A QUICK SOLUTION FOR THE STORAGE OF WATER

Prices from
32 cent per litre

Smart TANK

EXTREME ZINCALUME COATED

The smart tank is a complete custom-built water storage tank according to your specifications. Adapt the tank shell, roof sheets, colour and resistance to wind speeds against extreme weather conditions and ship it to anywhere in the world. **Multiple options even bigger & better.**

Advantages

- ★ Thanks to its corrugated shell and the zincalume coating, the Smart Tank is very durable for inland and coastal conditions.
- ★ Using the latest geomembrane technology, we make sure that the liquid stored inside is not contaminated: the tank is lined with a certified potable liner suitable for human and animal consumption.
- ★ The Smart Tank can be produced in optional polymer coated colors that can blend into the environment.
- ★ The Smart Tank is designed to withstand windspeeds, thunderstorms and earthquakes.
- ★ Having a modular design, the Smart Tank can be shipped anywhere in the world and erected on-site very easily.

Exceptional quality

The Smart Tank is designed to stand up to aggressive wind loads in specific regions where hurricanes, high winds and thunderstorms occur regularly. The tank shell can be adapted to your specific needs, we can adapt the wall sheet thickness, roof sheeting and truss design for an even more durable structure when nature comes thundering down.

The steel panels of the tank are coated with a zinc layer on both sides. The corrugated steel sheet is continuously hot dipped in a formulation of Aluminum (55%), Zinc (43.5%) and Silicon (1.5%). The aluminum components of the coating provide a tough physical barrier between the extreme atmospheric conditions and the inner core steel.

Zinc has inherent sacrificial properties and corrodes first before the mild steel corrodes. A lightweight zincalume roof designed to withstand wind speeds of up to 55m/second can cover tanks. Roofs are fitted with a hatch, internal and external ladder for easy access inside the tank. Tanks can also be sealed with felt to avoid insect and dust contamination.

Key Features

- ★ Designed to the highest South African standards
- ★ Certified and approved by professional engineers
- ★ Cost-effective, high-quality panel-type bolted tanks
- ★ Highly corrosion-resistant steel that is 5 to 10 times more resistant than standard galvanized steel
- ★ Flat pack and easily transportable reduce shipping weight
- ★ Firmness of shape and mechanical strength
- ★ Design life of more than 50 years

“
We’re
confident
in their
decisions.”

If they tell you that this is the way to go, I don’t even look at anything else. I know it’s the right way.

”

- Basil Jacobs, manager of Wilderness Fruit
where Agrico designed and supplied drip- and micro-irrigation
systems on kiwifruit, avocados, macadamia and strawberries

Limited water supply? Let’s make a plan, **together.**

Agrico delivers tailor-made micro and drip-irrigation systems to suit your farming needs and help you achieve success. Depth of knowledge paired with extensive design expertise, help us to recommend the optimal irrigation solution, every time.

But we don’t stop there.

At Agrico, we believe that we are only relevant as long as we create value. We back up our products with high calibre customer service and an extensive support network. Our warm and knowledgeable staff will go above and beyond to assist you and solve any problem you might have.

DROTSKY S6 Superplant

Slow speed hammer mill brakes the maize to loosen the husks and the germ. The product goes through the aspirator where the husks and the germs are separated from the samp. The samp must be collected in a separate collecting bin/bag. (not supplied)

High Speed Hammer mill—after collecting the samp coming out of the aspirator, mill the samp in the high speed hammer mill. The screen size will determine the end product.

Specs

MODEL	SUPERPLANT
Rotor speed	
High Speed	3400 rpm
Slow Speed	725 rpm
Motor speed	1450 rpm
kW Required	11kW / 15KW
HP Required	20 HP
Screen Size	1500 x 130 mm
Hammer mill size	246 x 175 x 146 cm
Maize—Slow speed Mill	
6.8mm Screen	150-200 kg/h
Maize—High speed mill	
0.8mm Screen	400 kg/h
1.2mm Screen	500 kg/h

OESVERSEKERING LOOP IN ONS ARE.

Winter Hael

Is jou wintergrane verseker?

Niemand kan die toekoms voorspel nie, maar ons kan dit vir jou beskerm.

Wintergewasse
Koring, Gars en Hawer.

Versekerde gevare sluit in:
Hael, Brand en Transito.
Ryp (indien beskikbaar, teen 'n addisionele premie - Haver uitgesluit).

Vir meer inligting kontak u agent of IMPAC CropSure
Tel: 012 010 0697 | Epos: info@impaccropsure.co.za

INKOMSTEWAARBORG

Niemand kan die toekoms voorspel nie, maar ons kan dit vir jou beskerm.

Hierdie versekeringsprodukt is gegrand op 'n gewaarborgde inkomste en verseker die produsent teen randwaarde per hektaar. Twee veranderlike word die tydens sake in berekening gebring naamlik: Ryp (SAFEEX en Oopvries) en Oorsnee, Sojablaar en Sojabone.

Watter soort skade word gedek?
Droogte, Brand, Hael, Transito, Ryp, Oormaat Regen, Vloed, Onbeheerbare plantstelsel en -insektae, Oormatige hittegolwe.

How word die versekerde Inkomstewaarborg bereken?
LOG & SAFEEX prys x hektaar x Waarborgpersentasie.
• LOG soos goedgekeur deur IMPAC CropSure.
• SAFEEX-prys, gebaseerd op die laaste 20 verhandelingsdae vir einde Julie volgende jaar (Mielies) of einde Mei volgende jaar (Sojabone en Sojablaar).
• Hektaar volgens oorbepaling.
• Hoëste min waarborgpersentasie soos deur IMPAC CropSure goedgekeur (skiklik kan dit verlaag).

How word die berekening van skade gedoen?
Die skade moet IMPAC CropSure 2 weke voor die strooppoging begin, in kennis stel. Bane sal gestroop word op alle lande om opbrengs te bepaal. Die inkomste van die totale boerdery-reeks sal bereken word volgens die opbrengs (Tonne) van die gestroopde bane en die SAFEEX-prys (soos op laaste dag van stroopoperasie, gemiddeld van 20 verhandelingsdae lang).
EIS - Indien die Inkomstewaarborg minder is as die waarborgwaarde.
OEREIS - Indien die Inkomstewaarborg meer is as die waarborgwaarde.

How word handtekening op die Inkomstewaarborg plaas?
• Handtekening is ingesluit tot die waarborgpersentasie.
• Teken dit word gedoen sodra finalisade gestroopoperasie word, gaan oorsiggevoerd vind eger volgens hierdie taksatiese plaas nie.
• Skadebetaling word gedoen deur 'n stroopmaksimale tydens stroooperasie.
• Indien die gewaarborgde inkomste bereik is tydens oorsnee, sal 'n eis op hael nie realiseer nie.

Is skadebetaling handtekening beskikbaar?
Ja, IMPAC CropSure bied ook skadebetaling handtekening.

Wanneer is premies betaalbaar?
• Mielies en Sojablaar voor of op 30 Junie.
• Sojabone voor of op 31 Mei.
• Indien premie voor 28 Februarie betaal word, sal 'n korting van toepassing wees.

Wintergewasse: Koring, Gars en Hawer. Versekerde gevare sluit in: Hael, Brand en Transito.
Ryp (indien beskikbaar, teen 'n addisionele premie - Haver uitgesluit).

**SOUTH AFRICA'S LEADING
PESTICIDE RESIDUE TESTING LABORATORY**

WHO WE ARE

Hearshaw and Kinnes Analytical Laboratory (Pty) Ltd. is an independent laboratory specialising in pesticide residue analysis for the agricultural and food producing industries since 2002.

We are focused on building productive relationships with our clients through communication and reliability.

We invest in highly qualified personnel and the best available instrumentation and laboratory equipment.

We are the only pesticide residue testing laboratory in South Africa that uses state of the art high resolution equipment that is in line with the top European laboratories.

WHY CHOOSE US

Reliable Results

Short Turnaround Times

Extended Scope of Testing

Cost Effective

SCOPE OF TESTING

In addition to our multi-residue methods we also have a number of target analysis methods:

- Rapid (24hr) Ethephon testing
- Alkaline hydrolysis for acidic herbicides
- Chlormequat, Mepiquat
- Dinocap and Meptyl Dinocap
- Dithianon
- Phosphonic acid, Fosetyl and Fosetyl AI
- Dithiocarbamates
- Glyphosate, Glufosinate and AMPA
- Guazatine

YOUNG PEOPLE

SEE THE FUTURE

Differently

The way in which **young people see the future** speaks of a positive attitude – and of the choice to be relevant in a new era. AgriSeker shares this excitement about the future of agriculture in South Africa. Our motto is 'A **certain future**', after all.

AgriSeker is motivated to make a contribution to the future of our country with a dedicated focus on agriculture through knowledge, understanding and participation in this sector. Our focus is on producers and young people, because for agriculture to survive, we need you.

OLI IS THE WORLDWIDE LEADER IN INDUSTRIAL VIBRATION TECHNOLOGY

MAKING BUSINESS SIMPLER FOR CUSTOMERS WHILE GOING GLOBAL WITH A FIRST-CLASS PRODUCT HAS PROVED SUCCESSFUL IN MAKING OLI THE WORLD'S TOP SELLING COMPANY OF ELECTRIC EXTERNAL MOTOVIBRATORS.

WHEN YOU NEED IT, WHERE YOU NEED IT

As a global player in industrial vibration technology, with three manufacturing sites and eighteen trading subsidiaries, it is OLI's goal to provide excellent value to our customers.

OLI has been committed to delivering high-quality market-orientated products since being founded in 1961, but is aware that excellent customer service is of pivotal importance. The OLI product is distributed in Southern Africa by its subsidiary in Gauteng, South Africa.

The OLI product meets the high demands of the South African climate. Its high-quality products and equipment that can withstand our harsh operating environment. As a strong believer in innovation, OLI is constantly striving to be ahead of the curve.

It is this drive for innovation that allows us to now offer stainless steel motors to industry for clean and efficient plant operation.

We also offer a range of flanged mounted electric vibrators, specifically designed to be retro-fitted to existing equipment in a number of industries and sectors.

Our other offerings - pneumatic hammers and linear pneumatic vibrators - reduces numerous material flow headaches in plants. Identifying the customers'

needs is a priority; achieving a partnership built on trust is the reward. By supplying competitive, high-quality products for wide-ranging applications, OLI combines performance and reliability by adapting to the ever-changing market.

The key centrepiece of OLI's business strategy is rapid stock delivery, any time, any place in the world. With its skilled competence and valuable knowledge of the industry, OLI is a credible expert when it comes to assistance in finding the most suitable solution to each individual customer's request.

As all OLI's products are market-orientated, this affords the company knowledge of numerous applications and industries.

WHEN YOU NEED IT, WHERE YOU NEED IT!
THE MISSION STATEMENT THAT GIVES OLI THE EDGE OVER ITS COMPETITORS

RIPPER TILLAGE

Equipment

www.ripper tillage.co.za

Ripper Tillage Equipment design and develop Agricultural Equipment. Manufacturing of Ripfill, Stripill equipment, Rolegtand and Planter closing wheels.

When you choose Ripper Tillage Equipment, you will find a friendly and competent supplier who truly cares about your interests and building long-term commercial relationships in your yearly farming practices. As a family that has been involved in the manufacturing of agricultural equipment for the past three decades we truly understand the challenges our South African farmers are facing and hence provide equipment and services that meet needs and requirements of our customers.

A dynamic company founded in 1984 by Chris Botha, a third-generation farmer on Graspan that prides itself with the engineering and manufacturing of robust agricultural equipment designed to accommodate the

farmer's soil conditions and requirements.

Ripper Tillage Equipment was established in 2014 by Christine Boucher second generation of manufacturers. Together with Christoff Botha we proud ourselves as a brother and sister team, delivering quality agricultural products for the past 8 years.

Our core operational activities consist of the design, retail and manufacturing of seedbed preparation products within the conservation practices of soil preparation. With the focus on an ever-changing environment, we supply everything from pre-planting tools, planting equipment to after-planting practices.

DRIVEN BY POSSIBILITY™

GATES AGRICULTURAL BELTS: MAXIMUM BENEFITS, NO DOWNTIME

Agricultural machinery is often extremely demanding and downtime can be very costly. This is why Gates offers you a special Agricultural Belt Program – a comprehensive range of belts that support almost any type of agricultural machine when it comes to power transmission.

The belts are designed to:

- Offer **superior performance** through the use of state-of-the-art materials and manufacturing processes
- Work in the **heaviest conditions** possible and run **trouble-free**
- Cover a **multitude of applications** on combine harvesters and tractors

With Gates heavy-duty belts, your agricultural machines will not suffer from breakdown. This way, you avoid expensive loss during the season.

OVITECH

DRAAI EIERS OM IN 'N WAARDEVOLLE BESIGHEID

EIER-GRADERING OPLOSSINGS, ALLES IN EEN MANDJIE.
DIENS VAN EIERSMASJIENE

Ovitech is in 2008 gestig deur die huidige 3 direkteure. Op daardie stadium het ons reeds jare ondervinding in die pluimveebedryf gehad, spesifiek eiergrader masjiene en verwante toerusting.

Ons het vroeg reeds 'n samewerkingsooreenkoms met Sanovo (Staalkat) bereik en n jaar later is die Suider Afrikaanse agentskap aan ons toegeken.

Ons reputasie het spoedig die aandag van ander rolspelers getrek en ons het nog 3 agentskappe bekom.

Die ander maatskappye wat ons verteenwoordig is Nuovo, Gi-Ovo en Ovo-Tech. Ons is vandag die leiers in verkope van nuwe toerusting in pakstasies in Suidelike Afrika.

WORLD FOCUS agri

Plantenergie bestuur deur
Innoverende Tegnologiee

ONTSLUIT DIE GROEN REVOLUSIE!

World Focus Agri se produkte
word gebruik as 'n organiese
groeistimulant dwarsdeur die
plant se lewensiklus.

B4999 COMPLEX ROOT

'n Unieke kombinasie van **Organiese sure**, **Aminosure** en **Ensieme**, vir die verbetering van grondgesondheid, versterking van wortelgroei by plante en saailinge.

Boor(B)...2g/Kg, Magnesium (Mg)...1g/kg

B5089 COA FERTIGATION

'n Unieke kombinasie van spesifieke **Humaat** en **Fulvien** samestellings vir grond en groeimedium aanwending. Spesifiek geformuleer vir optimale ondersteuning van plante-voedingstowwe in die wortelzone.

Stikstof (N)...56 g/kg N, Stikstof (S)...5 g/kg

B4683 CCM

'n Ultrafyn gemikroniseerde **MG/Ca** bron in die **Karbonaat** vorm gemiddelde partikel grootte van 5 – 15Mikron

(1 000 x kleiner as die 80% van Konvensionele Landbou kalk)

Ca...190g/kg, Mg...110g/kg, Organies...30g/kg

B4990 COMPLEX CALCUS

'n Ultrafyn gemikroniseerde **Ca** bron in die **Sulfaat** vorm gemiddelde partikel grootte tussen 5 – 15Mikron

(1 000 x kleiner as die 80% van Konvensionele Landbou kalk)

Ca...230g/kg

B4682 COMPLEX CALCUS

'n Ultrafyn gemikroniseerde **Ca** bron in die **Karbonaat** vorm gemiddelde partikel grootte tussen 5 – 15Mikron

(1 000 x kleiner as die 80% van Konvensionele Landbou kalk)

ULTRAFYN KALK -TOEKOMS VAN LANDBOU-

Ultrafyn kalk bied gemak van toediening, maar lewer ook uitstaande prestasie. Aanwending van ultrafyn kalk in suspensie gee die beheer wat nodig is vir eenvormige toediening sonder die stof. Prestasie is ook betere agv partikel grootte van tussen 5 en 15 mikron. Hierdie verbeterde tegnologie bring mee reaktiwiteit en reaksie tempo, met die ultrafyn partikels wat tussen die groter grond deeltjies kan inbeweeg. Die deeltjies kan so diep as 15cm in die grond beweeg waar die Ph, Ca:Mg verhoudings verbeter word, met verbeterde mikrobiiese aktiwiteit en voedingstof beskikbaarheid.

Wanneer om toe te dien?

Kalk word hoofsaaklik vir grond regstelling toegedien terwyl plante floreer op reggestelde grond. As gevolg van die verhoogde reaktiwiteit van Ultrafyn kalk kan dit enigtyd voor plant en selfs na plant toegedien word. Ultrafyn kalk kan selfs duer middel van besproeiings stelsels toegedien word, kleiner applikasies kan nou gedurende die groeiseisoen toegedien word indien nodig.

Hoe lank neem dit vir Ultrafyn kalk om te werk?

Reaktiwiteit van kalk hang af van die tipe kalk, verskillende kalk bronne verskil in KKE (Kalsiumkarbonaatekwivalent) en of Mafnesium inhoud. Die fynheid van die kalk sal ook die reaktiwiteit beïnvloed. Dus hoe vyner en hoër die KKE van die kalk brons is hoe vinniger en meer effektief die reaksie in die grond.

World Focus Agri se ultrafyn kalk en gips is so fyn dat dit in suspensie toegedien moet word en omdat kalk water nodig het om in grond te reageer begin die reaksie onmiddellik nadat dit op die grond toegedien is.

Hoe dikwels is bekalking nodig?

Die antwoord op hierdie vraag hang af van 'n verskeidenheid oorwegings.

'n Grond met lae KUK (Kation Uitrui Kapasiteit) reageer op relatief min kalk, met meer gereelde toedienings in kleiner inkremente

Grond met 'n hoë KUK (Kation Uitrui Kapsiteit) benodig groter hoeveelhede van kalk en dit mag verskeie jare neem voordat bekalking weer benodig word. Kleiner hoeveelhede kan nou meer gereeld toegedien word.

In die algemeen kan Ultrafyn kalk/Gips as deel van die jaarlikse bemestings program gedoen word. By rygewasse kan Ultrafyn Kalk/Gips ook in die kunsmisband toe gedien word vir neutralisering van dersuring wat onstaan deur die oksidasie van gereduseerde N-kunsmis wat toegedien is.

VOORDELE:

- Gemak van toediening
- Hoër reaktiwiteit
- Vertikale beweging in grond
- Minder vervoer kostes
- Meer eenvormige toediening

KRISTAL TEGNOLOGIE

DIE OPLOSSING VIR EFFEKTIEWE PLAAGBEHEER

Kan jy beskosstig om daarsonder te boer?
Plaagbeheer was nog nooit so maklik nie

- Spesiespesifiek en eko-vriendelik, koste effektief
- Beheer jou plaë deur slegs foto's te neem, die kontrole is in jou hande
- Van die foto's af kan ons enige plaag beheer op jou plaas oral in die wêreld
- Verbeter produksie en kwaliteit in 'n onseker tyd teen lae kostes
- Die enigste gewaarborgde plaagbeheer in die wêreld en oordragings kan op die plaas gemonitor word.

JY KAN NOU BOER IN 'N EKO-VRIENDELIKE EN ONDERHOUBARE MANIER

Besigtig ons aanlyn by: www.agrifrequencies.com

KRISTAL TEGNOLOGIE

KRISTALTEGNOLOGIE BIED OMGEWINGSVRIENDELIKE, GEVORDERDE SPESIESPESIFIEKE PLAAGBEHEER!

Kristalfrekwensies is onskadelik vir die mens en teiken spesifieke spesies, enige plek in die wêreld, chemies vry sonder om ander spesies soos bye en predatore aan te tas.

Agri Frequencies se gevorderde stelsel is aanpasbaar vir mutasies en variasies binne spesies.

Kwantumkoppeling word gebruik om die frekwensies onmiddellik op enige oppervlakte in die wêreld te plaas en is meetbaar.

Frekwensiebehandeling is baie meer doeltreffend as chemiese behandeling teen 'n fraksie van die

koste. Chemikalieë raak ook minder doeltreffend omdat die insekte weerstand opbou.

Om die beste resultate te behaal?

Wanneer jy AgriFrequencies se oesbeskermingspakket neem is dit belangrik om akkurate inligting oor die insekte wat pla deur te stuur, sodat die regte frekwensies teruggestuur kan word.

Gereelde foto's moet geneem en deurgestuur word en kleiner insekte of swamme kan deur middel van 'n mikroskoop waargeneem word. Ons maak dit maklik deur 'n laekoste mikroskoop beskikbaar te stel wat jy aan jou rekenaar koppel om die beeld vas te lê en deur gestuur kan word.

Kristaltegnologie kan ingespan word vir 'n baie wye reeks toepassings nl:

- Beheer virusse, bakterieë, swamme, plant- en dieresiektes;
- Insek en plaagdierbeheer soos rotte, voëls ape en jakkalse;
- Stimulering van grondorganismes vir beter plantgroei en opbrengsgehalte;
- Verbeterdie gehalte en opname van voeraanvullings, mikro- en makroelemente en pas pH van die grond aan;
- Besproeiingslyne en druppers kan skoongemaak word van kalk-aanpaksels;
- Dood alge in damme en swambadens, chemiesvry;
- Duiwe en vlermuise kan verjaag word in 'n straal van tot 200 meter en,
- Huishoudelike produkte is beskikbaar vir plaagbeheer (Pest Vibes), beter groei en beskerming teen rypskade (Tuinfeëtjies), verminderde watergebruik (Aqua Struct), persoonlike gesondheid (Wellness-hangertjies) en 10-15% beter brandstofverbruik deur die strukturering van brandstof (Auto Struct).

Identifiseer jou plaag met behulp van 'n Agri Frequencies-mikroskoop. 'n Volledige pakket van insekbeheer en groei vir boere kos slegs R1 200.00 per hektaar per jaar. Korting vir groter plase beskikbaar!

FERTASA,
CERTIFIED
CREDIBILITY.

FERTASA

Fertilizer Association of Southern Africa

Tel: +27 (0) 12 349 1450

Email: general@fertasa.co.za

WE STAND FOR THE PROTECTION OF THE SUSTAINABLE USE OF FERTILIZER.

Fertasa strives to provide information on fertilizer and crop related topics. Apart from assistance with fertilizer applications, queries relating to fertilizer usage, plant nutrition and soil fertility usage, plant nutrition and soil fertility are referred to our Technical Advisers or Subject Matter Specialists for their expert opinions and advice.

Member companies and others are encouraged to share their experiences in proven techniques and novel approaches in ensuring social, environmental and economic sustainability for all.

Structure of Fertasa

Fertasa is managed and directed by a Board of Directors who are elected by and representative of the ordinary members. The Board of Directors report to the Members which comprise representatives from all ordinary and affiliate members. The Members appoint operational committees to attend to various aspects of the business of Fertasa.

Purpose

Fertasa is a recognised and preferred body aimed at promoting the image of the fertilizer industry through:

- Promoting the integrity of each Member and building preferential trust for their products and services.
- Enhancing and protecting the interest of its members through effective engagement with government and organised agriculture.

Board of Directors

The Board of directors manages and directs the business and affairs of Fertasa. The Board comprises six (6) directors, and one (1) executive director (the Chief Executive Officer of Fertasa).

The directors are elected by the ordinary members with equal representation from both smaller and larger member companies.

Core Functions

- Actively promote the agro-economic and environmentally accountable fertilizer, bio-fertilizer and aglime practices;
- Develop a positive public awareness and acceptance of the need for fertilizer, bio-fertilizer and aglime use in food production;
- Improve the operating environment within which its constituent industries operate in a spirit of free enterprise and fair trade;
- Assimilate, adds value to and disseminates fertilizer, bio-fertilizer and aglime related information;
- Provide a discussion forum for its members and other parties on all aspects relating to fertilizer, bio-fertilizer and aglime distribution, agronomic advice and product quality.

Who are we?

- A code of conduct.
- A set of standards audited by an independent compliance management body.
- Quality products.
- Relevant scientifically-based recommendations.
- Continual learning and improvement.
- Complying with all legal requirements.

www.fertasa.co.za

Fertasa and its members are committed to the promotion of sustainable soil fertility and enhanced plant nutrition.

Manufactured Timber Products

The timber for our treatment plants are sourced from TWK's own sustainable plantations.

Our treatment facilities meet the South African National Standards SANS 457, SANS 754, SANS 1288.

We pride ourselves on producing Quality H4 and H5 products. On Time. In Full.

Our CCA and Creosote product range include:

- Building and fencing
- Agricultural netting
- Transmission
- Vineyard
- Orchard

Contact us now for these treated timber products.
