EDITOR'S LETTER

It's been a journey, but the February | March 2021 copy of the AGRIFOODSA Magazine is finally here!

Despite the AFSA team running at one hundred since the reopening of our offices in early January, this has been one of the most challenging publications to get to the printers in our history. Most of us were thinking that the best thing about 2020 is that's it's over, but it's been as equally daunting start to 2021. We've had to take leave from our beloved Office and Accounts Manager, Ida van Zweel, in her retirement, bid farewell to titans in the industry because of Covid-19 and have seen too many customers close down businesses. The struggle is very real.

But as hard as it's been, the level of perseverance and determination has been extremely inspiring. People stepped up to help each other during these trying times, got creative to keep schools and businesses going, and found ways to distract themselves from boredom and isolation. And we've strived to contribute on all of these fronts, so please enjoy everything we have on offer for this issue.

The first mention goes to our cover featured advertiser, OLI South Africa. OLI is the international leader in industrial vibration technology, providing clients around the world with industrial vibrators, electric vibrators, concrete consolidation, frequency converters and a vast range of products designed to adapt to multiple applications in the widest range of industrial sectors. The company combines the quality of Italian know-how with a global strategy, allowing it to become one of the main sector players in the international field thanks to the contribution of an international network of business subsidiaries spanning all five continents. To find out more about their products and services, go to www.olivibra.com.

Apart from the magazine, be sure to have a look at our offerings on the AGRIFOODSA.INFO website (www.agrifoodsa.info), our bi-monthly newsletter and find us on all major social media platforms.

In closing, we'd like to thank all of our loyal and new customers for your support of AGRIFOODSA, and a special mention to the lovely people of Cape Town for warmly welcoming our marketing team to the Mother City during their recent roadshow.

Chin up,

Chantell de Bruin

Cobb broiler performance breaks records at RCL FOODS

With the step change in the performance of the Cobb 500 broiler over the last couple of years, it is no wonder it is the broiler of choice for small and large scale farmers alike.

The bird is more efficient than ever producing record FCR's, ADG's and weights.

Congratulations to RCL FOODS farms on achieving superior performance with the Cobb 500 Broiler over the past 8 months delivering PEF's exceeding 450.

	Farm 1	Farm 2	Farm 3	Farm 4	Farm 5
# Birds	79,376	251,962	252,126	268,114	324,000
PEF	488.0	468,7	455.8	452.5	452.0

BRASUDA SPESIALISEER IN MEERJARIGE SOMERGRASSE, MEERJARIGE VOERSORGHUMS, MEERJARIGE MENGSELS, KUNSMIS, ASOOK WINTER- EN SOMERDEKGEWASSE

Ons verskaf tans 6 hoof grasspesies en 2 sorghumspesies wat ons self ontwikkel en veredel in Brasilië en Mexico en invoer na Suid-Afrika.

HOOFKARAKTEREIEKAPPE VAN SOMMIGE VAN ONS PRODUKTE:

BRACHIARIA BRIZANTHA (BROODGRAS)

MG4

- Geskik vir direkte weiding en maak van hooi
- Lae vereistes in grondvrugbaarheid
- Smaaklik en goeie verteerbaarheid
- Hoë droogtebestandheid
- Protiëinhoud 9 -11 %
- Produseer 10 -12 ton/dm/ha/j
- Plantdigtheid 8 kg/ha

MG5 VICTORIA

- Geskik vir direkte weiding en maak van hooi
- Smaaklik en goeie verteerbaarheid
- Hoë droogtebestandheid
- Protiëinhoud 8 -13 %
- Produseer 10 -20 ton/dm/ha/j
- Plantdigtheid 8 kg/ha

PANICUM MAXIMUM (WITBUFFEL)

ARIES II

- Geskik vir direkte weiding en maak van hooi
- Die mees smaaklike en verteerbare witbuffel op die mark
- Goeie weidingsgewas vir skape, bokke, perde en beeste
- Droogte- en kouebestand
- Protiëinhoud 10 -15 %
- Produseer 18 - 20 ton/dm/ha/j
- Plantdigtheid 6 kg/ha

MOMBASA

- Geskik vir direkte weiding en maak van hooi en kuilvoer
- Smaaklik en goeie verteerbaarheid
- Bereik 'n hoogte van meer as 2 meter
- Kouevatbaarheid: Medium
- Protiëinhoud 12 -16 %
- Produseer 20 -30 ton/dm/ha/j
- Plantdigtheid 6 kg/ha

TANZANIA

- Geskik vir direkte weiding en maak van hooi en kuilvoer
- Baie smaaklik en verteerbaar
- Goeie weidingsgewas
- Kouevatbaarheid: Medium
- Protiëinhoud 12 -16 %
- Produseer 20 - 26 ton/dm/ha/j
- Plantdigtheid 6 kg/ha

PAREDAO

- Geskik vir direkte weiding en maak van hooi en kuilvoer
- Uitstekende smaaklikheid en verteerbaarheid
- Goeie weidingsgewas
- Goeie melkproduksie
- Droogtebestandheid: Hoog
- Kouevatbaarheid: Medium
- Protiëinhoud 10 -16 %
- Produseer 30 - 35 ton/dm/ha/j
- Plantdigtheid 6 kg/ha

SETARIA SPHACELATA (MANNAGRAS)

TJUJCA

- Geskik vir direkte weiding en maak van hooi
- Smaaklik en goeie verteerbaarheid
- Lae vereistes in grondvrugbaarheid
- Bereik 'n hoogte van tot 1.6 meter
- Kouetoleransie: Goed
- Droogtebestandheid: Baie goed
- Weerstaan swak gedreineerde grond goed
- Protiëinhoud 7 -9 %
- Produseer 10 - 12 ton/dm/ha/j
- Plantdigtheid 6 kg/ha

MEERJARIGE GRASMENGSELS

4 GAME MENGSEL

- Mengsel van Aries, Marandu/MG4, Smutsvinger en Rhodesgras
- Die saad is bedek met Agricolite wat help met ontkieming en wortelgroei-stimulasie
- Vestig maklik
- Geskik vir weiding en maak van hooi
- Goeie weidingsgewas vir wild, skape, bokke, perde en beeste
- Kouebestand
- Protiëinhoud 8 -13 %
- Produseer 9 - 15 ton/dm/ha/j
- Plantdigtheid 10 kg/ha

* ANDER MEERJARIGE GRASMENGSELS BESKIKBAAR:
5 STAR, 4 WETLAND, 4 SUURVELD, 4 ARID, 4 GRAZER
MET MOMBASA, 4 GRAZER MET PAREDAO

PEULGEWASSE

JAVA

- Geskik vir direkte weiding
- Smaaklik en verteerbaar
- Kouebestandheid: Laag
- Kan in swak grond groei
- Verskaf 150 kg N/ha/jaar
- Protiëinhoud 18 -23 %
- Produseer 5 - 9 ton/dm/ha/j
- Plantdigtheid 5 kg/ha

MEERJARIGE VOERSORGHUMS

SUPER SWEET SORGHUM

- Variëteite beskikbaar: SE1 en SE19
- Hoë opbrengste met hoë voedingswaarde
- Stikstoffsikerende eienskappe
- Geskik vir alkaliese grond
- Plantdigtheid 5 kg/ha
- Produseer tussen 130 - 200 ton/dm/ha/j

* SORGHUM MENGSELS BESKIKBAAR

WINTER EN SOMER DEKGEWASSE

Brasuda maak 'n pasmaak dekgewas vir die boer volgens sy eie behoefte inaggeneem die verlangde plantdatum, lokaliteit en strek.

Agri Solutions

Ctrack's tracking solutions help farmers save on costs and improve performance through better planning and decision making regardless of crop type, farm or fleet size. By providing critical information about your equipment, you can efficiently manage your assets, time and

money investment. Our suite of GPS tracking devices are built for the often rough and remote conditions in South Africa so you can rest assured that your agricultural equipment will always be properly monitored.

Features:

-  Machine usage (operating hours)
-  Pattern of use (direction when used)
-  Real-time alert (geo zones)
-  Potential asset theft or tampering alerts

NEW GENERATION UNATTENDED

AFFORDABLE, LONG LIFE, LONG RANGE,

WHY IT WORKS?

To be successful, a threat requires two things:

- surprise and
- manoeuver.

Pathfinder eliminates both by covertly detecting, identifying, and monitoring threats before they can cause damage or inflict harm.

Pathfinder provides what other sensors can't by allowing users to intervene against threats at the most opportune moment, making it appear as 'chance contact'. Detailed activity monitoring lets users easily keep the threat's tactics, techniques, and procedures intact while giving no indication that his activities have been compromised.

**EASY TO TRANSPORT
AND INSTALL**

Staalboer tank stands are supplied in kit form for ease of transport. The tank stands also have hinges on two of the columns, eliminating the need for a crane to install the tank stand.

ENGINEER CERTIFIED

The structure of our tank stands come with a structural engineering certificate.

REGISTERED EXPORTERS

All of our products are easy to transport, reducing the cost of exporting and ensuring that our products can be shipped anywhere in the world.

QUALITY GUARANTEE

We take great pride in our work and the quality of our products. Our focus is to ensure that every client's needs are met, and that they are left satisfied.

WATER INGENIEURSWESE WAT JY KAN VERTROU

Ons kyk terug na meer as 100 jaar se watertoevoer kennis en ervaring. Met ons erkende geskiedenis wat oor 'n eeu se besigheid strek, het ons bekend geword as 'n gerespekteerde handelsmerk wat slegs gehalte en betroubare produkte lewer.

Verskaffer van:

- Watervoorsiening (boorgatpompe)
- Watervloei verbetering (drukpompe)
- Verwerking en dreinerings van water (dreineringspompe)
- Bestuur en afvoer van afvalwater (rioolpompe)

Tegniese bystand en advies sluit in:

- Besproeiingsaanleg
- Rioloordrag
- Sonkragontwerp
- Watervoorsieningontwerp
- Elektriesiteitsbesparingsmetodes
- Brandbestrydingseenheid ontwerp

MAXECO CELEBRATES 30 YEARS. HAS ANY BOOT DONE MORE TO BUILD OUR COUNTRY?

For 30 years, Maxeco has helped build a nation with the world's toughest workforce. Across construction sites, mines, farms and factories, almost 10 million pairs have helped realise the dream of a stronger South Africa by protecting the millions of workers who built it. Now that's a beautiful thing!

LEMAITRE SAFETY FOOTWEAR
FROM ONE WORKER TO ANOTHER

www.lemaitre.co.za

THE MOST *Beautiful* SHOE IN SOUTH AFRICA?

*Since 1990 no other safety footwear style has sold more pairs in SA, as we near 10 million pairs sold.

Maxeco has remained an icon of South Africa's industries, providing 30 years of safety and service to the people strengthening our nation. The agriculture, mining, and construction industries have trusted in Maxeco to go the distance every day, and it continues to step up every time.

LEMAITRE
SAFETY FOOTWEAR

Beproof die goedkoop, gesonde alternatief:

KRISTALTEGNOLOGIE

KRISTALTEGNOLOGIE BIED
OMGEWINGSVRIENDELIKE,
GEVORDERDE SPESIESPESIFIEKE
PLAAGBEHEER!

Kristalfrekwensies is onskadelik vir die mens en teiken spesifieke spesies, enige plek in die wêreld, chemies vry sonder om ander spesies soos bye en predatore aan te tas.

Agri Frequencies se gevorderde stelsel is aanpasbaar vir mutasies en variasies binne spesies.

Kwantumkoppeling word gebruik om die frekwensies onmiddellik op enige oppervlakte in die wêreld te plaas en is meetbaar.

Frekwensiebehandeling is baie meer doeltreffend as chemiese behandeling teen 'n fraksie van die

koste. Chemikalieë raak ook minder doeltreffend omdat die insekte weerstand opbou.

Om die beste resultate te behaal?

Wanneer jy AgriFrequencies se oesbeskermingspakket neem is dit belangrik om akkurate inligting oor die insekte wat pla deur te stuur, sodat die regte frekwensies teruggestuur kan word.

Gereelde foto's moet geneem en deurgestuur word en kleiner insekte of swamme kan deur middel van 'n mikroskoop waargeneem word. Ons maak dit maklik deur 'n laekoste mikroskoop beskikbaar te stel wat jy aan jou rekenaar koppel om die beeld vas te lê en deur gestuur kan word.

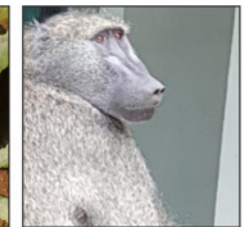

Kristaltegnologie kan ingespan word vir 'n baie wye reeks toepassings nl:

- Beheer virusse, bakterieë, swamme, plant- en dieriesiektes;
- Insek en plaagdierbeheer soos rotte, voëls ape en jakkalse;
- Stimulering van grondorganismes vir beter plantgroei en opbrengsgehalte;
- Verbeterdie gehalte en opname van voeraanvullings, mikro- en makroelemente en pas pH van die grond aan;
- Besproeiingslyne en druppers kan skoongemaak word van kalk-aanpaksels;
- Dood alge in damme en swambadens, chemiesvry;
- Duiwe en vlermuise kan verjaag word in 'n straal van tot 200 meter en,
- Huishoudelike produkte is beskikbaar vir plaagbeheer (Pest Vibes), beter groei en beskerming teen rypskade (Tuinfeetjies), verminderde watergebruik (Aqua Struct), persoonlike gesondheid (Wellness-hangertjies) en 10-15% beter brandstofverbruik deur die strukturering van brandstof (Auto Struct).

Identifiseer jou plaag met behulp van 'n Agri Frequencies-mikroskoop. 'n Volledige pakket van insekbeheer en groei vir boere kos slegs R1 200.00 per hektaar per jaar. Korting vir groter plase beskikbaar!

'n Nuwe
beheerstelsel
met **omvattende
selfoon-/internet-
kommunikasie...**
en dit is **standaard-
toerusting****

**Terme en voorwaardes geld

Kies SENTER360 vir plaaslike gehalte

By SENTER360 is ons trots daarop dat ons nie slegs produkte verkoop nie, maar dat ons ook langtermynverhoudings met ons kliënte bou deur 'n waardepakket van uitstekende gehalte en diens te verskaf ... en dit teen 'n verstommend mededingende prys.

Die SENTER360-spilpunt wat sedert 1994 in Suid-Afrika ontwerp en vervaardig word, is bekend vir sy uitmuntende gehalte en sterkte bo bedryfstandaarde. Vir meer as vyf-en-twintig jaar is ons al deel van die besproeiingsbedryf. Ons het groeiende sakebelange in Suid-Afrika, Afrika en die res van die wêreld.

By SENTER360 is spilpunte vir ons 'n passie. Juis daarom bou ons nie net 'n sterk en taai struktuur nie, maar ons bestee ook heelwat tyd en aandag aan die klein besonderhede wat 'n groot verskil in jou alledaagse lewe kan maak.

Strukturele stabiliteit

SENTER360 se vakwerkysters word van pyp vervaardig wat ligter as die algemeen gebruikte hoekysters is. Dit bied ons die voordeel om twee stelle vakwerkysters meer per toring te gebruik wat sorg dat die struktuur buitengewoon sterk is. Boonop het die pypstruktuur minder windweerstand en dit is waarom SENTER360 se spilpunte windsnelhede van 158 km uur (in die veld gemeet) kan weerstaan sonder enige skade; weer eens ook die rede waarom geen SENTER360-spilpunt in die onlangse stormwinde omgewaai het nie (die enigste fabrikaat wat bly staan het!). Standaard langer aandryfbalke, stewige toringstutte, stabiliseringstawe en diagonale stutte dra by tot dié uitsonderlike stabiliteit.

Skeppende beheerpaneelreëks

Die beginsel van eenvoudige modulêre ontwerp, wat die grondslag van die hele SENTER360-spilpuntontwerp uitmaak, word ook op ons beheerpaneelreëks toegepas.

As intreebeheerpaneel gebruik SENTER360 'n paneel vergelykbaar met die top reëks van ander fabrikate.

Dit het as standaardfunksies:

- aansit of afskakel
- terugvoering as die spilpunt staan
- regstreekse toedieningsverstelling
- posisiebepaling en terugvoering
- druk-aanskakeling en laedruk-afskakeling
- kan deelsirkels en sektore met wisselende toediening op elke sektor besproei
- sektorbeheer van die endsput
- outomatiese omdraai met wisselende toediening
- voorafprogrammeerbare skeduleringsopsies
- en vele meer!

Alle SENTER360-paneel kan met jou selfoon*, tablet*, rekenaar of vanaf 'n beheersentrum beheer en gemoniteer word deur 'n "van-die-rak" kommunikasie-eenheid van jou keuse soos 'n GPRS-selfoonnetwerk, WiFi of radio-eenheid op enige nuwe of bestaande** SENTER360-beheerpaneel in te prop.

Volle pompbeheer, VSD- (wisselbaarspoedaansitter) -beheer en terugvoering is ook beskikbaar op dieselfde stelsel.

*Android, IOS en ander

**ouer paneel se beheer is beperk tot aan/af, toedieningsverstelling en loop/staan terugrapportering

Laaste spuit-oplossing

Een van die meer algemene probleme met spilpunte is dat die laaste spuit geneig is om verstop te raak. Ons het egter met 'n skeppende, dog eenvoudige oplossing vorendag gekom om die laaste spuit deurlopend skoon te hou. SENTER360-spilpunte word as standaard toegerus met drukgeregleerde Komet Twister-sproeiers teen 10 psi (0,7 bar) of opsionele 6 psi (0,42 bar) wat aan hangpype gemoniteer is. Dit verseker maksimum water-in-die-grond resultate en uitstekende watterspreiding in selfs die uiterste klimaatstoestande.

Swaardiens ratkas en enjins

Die standaard aandrywing van die SENTER360-spilpunt bestaan uit 'n swaardiens wielratkas, wat deur 'n 0,56 kW (40:1) motorratkaskombinasie aangedryf word (30:1 en ander eenhede is opsioneel beskikbaar.) 'n Gratis opsionele vyfjaarwaarborg is beskikbaar. Bepalings en voorwaardes geld.

Kontak ons by **018-469-1331** of **082-564-5955** of besoek **www.senter360.co.za** vir meer inligting.

FERTASA

Fertilizer Association of Southern Africa

FERTASA, CERTIFIED CREDIBILITY.

WE STAND FOR THE PROTECTION OF
THE SUSTAINABLE USE OF FERTILIZER.

**FERTASA AND ITS MEMBERS ARE COMMITTED TO THE PROMOTION OF
SUSTAINABLE SOIL FERTILITY AND ENHANCED PLANT NUTRITION.**

Fertasa strives to provide information on fertilizer and crop related topics. Apart from assistance with fertilizer applications, queries relating to fertilizer usage, plant nutrition and soil fertility usage, plant nutrition and soil fertility are referred to our Technical Advisers or Subject Matter Specialists for their expert opinions and advice.

Member companies and others are encouraged to share their experiences in proven techniques and novel approaches in ensuring social, environmental and economic sustainability for all.

SCAN ME

WHO ARE WE?

- A code of conduct.
- A set of standards audited by an independent compliance management body.
- Quality products.
- Relevant scientifically-based recommendations.
- Continual learning and improvement.
- Complying with all legal requirements.

Structure of Fertasa

Fertasa is managed and directed by a Board of Directors who are elected by and representative of the ordinary members. The Board of Directors report to the Management Committee which comprises representatives from all ordinary and affiliate members. The Management Committee appoints operational committees to attend to various aspects of the business of Fertasa.

Purpose

Fertasa is a recognised and preferred body aimed at promoting the image of the fertilizer industry through:

- Promoting the integrity of each member and building preferential trust for their products and services.
- Enhancing and protecting the interest of its members through effective engagement with government and organised agriculture.

Mission

To provide a credible platform to promote the responsible and sustainable use of fertilizers.

Vision

To be recognised as the representative voice for the fertilizer industry and as the stamp of approval for responsible and sustainable soil fertility and plant nutrition in Southern Africa.

Board of Directors

The Board of directors manages and directs the business and affairs of Fertasa. The Board comprises six (6) directors, and one (1) executive director (the Chief Executive Officer of Fertasa).

The directors are elected by the ordinary members with equal representation from both smaller and larger member companies.

Core Functions

- Actively promote the agro-economic and environmentally accountable fertilizer and aglime practices;
- Develop a positive public awareness and acceptance of the need for fertilizer and aglime use in food production;
- Improve the operating environment within which its constituent industries operate in a spirit of free enterprise and fair trade;
- Assimilate, adds value to and disseminates fertilizer and aglime related information;
- Provide a discussion forum for its members and other parties on all aspects relating to fertilizer and aglime distribution, agronomic advice and product quality.
