EDITOR'S LETTER

Even as the world begins to re-open more permanently, it's clear that the pandemic will have a lasting impact on the way we distribute and consume marketing related information. The good news is that 2020 provided us a wealth of evidence of what did and didn't work,

how brand messaging has shifted and how consumer behaviours accelerated. With tried-and-true recipes to success and new strategies in place, we proudly bring you the August | September 2021 edition of the AGRIFOODSA Magazine.

Our cover featured advertiser for this edition is PlusNet/Geotex. PlusNet/Geotex is a division of Master Plastics Ltd and based in Gauteng. Master Plastics Ltd was founded in 1995 and the PlusNet Range was added in 2000. PlusNet/Geotex have a fully integrated state-of-the-art production facility where they manufacture and sell shade net suitable for both agricultural and commercial use. They have shade net construction services that will meet you at your point of need, and offer nationwide delivery. To find out more about their products and services, see pages 30-31 or go to www.plusnetgeotex.co.za.

Our AGRIFOODSA.INFO website (www.agrifoodsa.info) is in the first phases of its complete redesign. Check in regularly to keep up with the progress.

Also, be sure to head on over to our AFSA Facebook page (www.facebook.com/agrifoodsa) for more competitions, funnies, Advertiser Showcases and recipes, as well as helpful and informative articles uploaded on the daily.

Lastly, be on the lookout for our bi-monthly AGRIFOODSA Newsletter, featuring our digital magazine, informative articles, exciting competitions and more. To sign up to our newsletter, contact info@agrifoodsa.info.

Three lessons that the past 18 months have taught us is to be flexible, maintain a consistent presence on all media platforms and to reach people where they are. Thank you to our advertisers and readers alike for sticking with us in these trying times.

With gratitude,

Chantell de Bruin

ZINCAL DAMS - RESERVOIRS	EARTH DAMS
 <p>Reservoirs up to 522 kl</p>	 <p>HDPE liners available</p>

Any size ZincAl dam, grain dam, ZincAl tank or lining can be manufactured on request. 0.8mm to 1.2 mm ZincAl sheets with a life expectancy of 2 - 4 times longer than that of traditional sheets are used. 850 GSM PVC linings are manufactured with the aid of a high-frequency welding process. Linings are UV resistant. Material of the same thickness is used for the walls and the floor. Should the thickness differ, you get your lining free.

Nuwe Geelmielie Bewys Homself

“Daar is ‘n siening onder mielieprodusente dat goedkoper saad nie so goed presteer as ‘n duurder produk nie. United Seeds se US9614 geelmielie saad is goedkoop, maar het die beskouing verkeerd bewys,” sê Gerrie Meyer.

Hy boer vir die afgelope 20 jaar in die Oos-Vrystaat tussen Bethlehem en Petrus Steyn met beeste en skape asook met saaiwasse (50% mielies en 50% sojabone).

Meyer het verlede jaar 20% van sy melielande met US9614 aangeplant. “Ek het die saad op my minder goeie lande geplant en nie juis verwag dat dit sou presteer nie. Ek was egter aangenaam verras.”

US9614 het ‘n sterk wortelstelsel en word aanbeveel vir aanplanting tydens droogtes. Meyer het verlede seisoen egter ‘n nat jaar beleef en getuig dat US9614 steeds goed presteer het nie-optimale groei-toestande.

“Ek het voorskrif kunsmismengsels van High Fert Kunsmis toegedien en 30,000 plante per hektaar geplant met ‘n ryspasiëring van 90 cm. Oesopbrengste van 12 tot 13 ton/ha was op sommige gedeeltes bereik met ‘n gemiddelde opbrengs van 8,53 ton/ha op droëland,” sê hy. Eienskappe van US9614 wat Meyer beïndruk het sluit in:

Spruitvorming: Bogemiddelde reën dra by tot die produksie van oormatige spruite. US9614 het geen addisionele spruite gevorm nie.

Bestuwigingsperiode: US9614 het goed presteer alhoewel die groeijaar verkort is met minder beskikbare dae vir bestuwing na baie reën in Januarie en Februarie.

Meerkoppigheid: Meyer het twee koppe per plant geoes.

Staanvermoë: US9614 het goeie staanvermoë en nie omgeval as gevolg van al die reën nie.

Siekteverdraagsaamheid: Noordelike mielieblaarskroei (NMBS) rig skade aan die mielieblare en veroorsaak opbrengsverliese indien dit nie met voorkomende chemiese bespuitings bestuur word nie. US9614 is gehard teenoor NMBS en Meyer het geen bespuitings toegedien nie.

“US9614 staan nie terug vir enige kultivar van mededingers nie. Ek gaan beslis ‘n groter aantal hektaar daarvan volgende seisoen plant,” sê Meyer.

*Roundup Ready, YieldGard II en Tola is geregistreerde handelsmerke van Bayer.

GROW BAGS

Sizes:

10L
15L
20L
30L
50L
100L

Grow bags are made from a breathable geotextile material that allows more air to the soil and drains excess water, keeping the soil moist for healthy roots and plant growth. Grow bags have less of an environmental impact than plastic pots do. This makes fabric pots ideal for high-performance feeding. For indoor crops as well as outdoors. We manufacture grow bags in a white and black material.

NON-WOVEN, BREATHABLE GEOTEXTILE MATERIAL.

- UV PROTECTED
- REUSABLE
- WASHABLE
- AIDS IN SOIL AND ROOT AERATION
- EXCELLENT DRAINAGE
- MORE OXYGEN MEANS HEALTHY SOIL
- PROMOTES ROOT PRUNING
- INDOOR AND OUTDOOR USAGE
- BETTER QUALITY PLANTS
- HEALTHIER PLANTS

COOL FRESH & UNDER CONTROL

THE COLD ROOM:

TEMPERATURES BETWEEN 0° and 5°C

- Energy efficiency
- Single phase 220v
- Power draw ranges between 8 and 9 amps
- Power consumption from: 1.2kw @70% duty cycle

THE FREEZER ROOM:

TEMPERATURES BETWEEN 0° and -20°C

- Energy efficiency
- Single phase 220v
- Power draw ranges between 7 and 10 amps
- Power consumption from: 1.07kw @70% duty cycle
- Hot gas defrost
- No large spike in room temperature after every defrost cycle
- Short defrost period of only 1min every 2 hours - compared to standard freezer which can total up to 5 hours of defrosting time within the same 24 hour period

SINGLE PHASE UNITS

BUILT IN FLOOD LIGHT

Low energy LED light for packing and unpacking convenience

FLAT CHECKERED FLOORING

Flat aluminium flooring for easy trolley access

LOW NOISE POLLUTION

Low decibel emission thanks to low rpm motor

VARIETY OF PERISHABLES

Whatever the perishable , we have the single phased answer at the fraction of the cost

Agri Solutions

ctrack's tracking solutions help farmers save on costs and improve performance through better planning and decision making regardless of crop type, farm or fleet size. By providing critical information about your equipment, you can efficiently manage your assets, time and money

investment. Our suite of GPS tracking devices are built for the often rough and remote conditions in South Africa so you can rest assured that your agricultural equipment will always be properly monitored.

Features:

 Machine usage (operating hours)

 Real-time alert (geo zones)

 Pattern of use (direction when used)

 Potential asset theft or tampering alerts

Aviagen®

ROSS

Maximum Durability, Minimal Maintenance

The Valley 3000 is a spool-type electromagnetic flowmeter for use in irrigation applications in 4ft to 12ft pipe. With no moving parts, the Valley 3000 provides unobstructed flow and superior resistance to wear from debris that can be found in ground or surface water.

The Valley 3000 has no bearings to wear out or propellers to stop turning, making it a true minimum-maintenance flowmeter. Minimal straight pipe requirements allow Valley 3000 flowmeters to be used in piping configurations where there is little space between the meter and a fitting or valve.

The standard Valley 3000 is battery powered with an available pulse output. Both rate and total indication are displayed. Bidirectional flow reading comes standard with totals available in forward, reverse and net flow. Built-in data logging is an available option for secure flow logging.

Set your rate, total units, pulse scaling and various other settings on the front panel touch-key pad. The remote display model (Valley 3000r) provides remote access to control the meter and to view readings.

Flowmeter Features:

- Easy setup
- Minimal straight pipe requirement
- Mounted or remote flow rate and total
- Tamper-evident seal
- Telemetry ready fit for wireless meter reading
- Pulse or 4-20 mA output
- Battery powered with AC power option
- Options available for remote communications

Don't replace, **RE-PIPE.**

Durable products and
superior service from Valley.

AGRICULTURAL SHADENET

Part of the farmer's plan

For more information or a quotation, please contact us on
011 412 3954 or nets@plusnet.co.za

www.plusnetgeotex.co.za

PLUSNET

SETTING THE STANDARD IN THE SHADE NET INDUSTRY IN AFRICA

PLUSNET/GEOTEX

A Division of Master Plastics PTY , is a Gauteng based manufacturing company. Geotex was founded 25 years ago, in 1995 and the PlusNet Range was added in 2000. Today PlusNet/Geotex has a fully integrated state-of-the-art production facility that produces innovated products for the agricultural, commercial and civil industry.

AGRICULTURAL NET

PlusNet has a comprehensive range of agricultural shade netting (known as Agri+) from 20% to 60% shade, tailored to improve spectral transmittance and provide the optimal lighting and protection for your crop. Covering orchards with low-percentage shade nets can significantly improve the performance of the orchard / vineyard. Part of the responses can be attributed to the filtering of the light spectrum by the nets, and part is due to physical protection and creating a friendlier micro-climate.

DECORATIVE NET

Our range of attractive and functional decorative shade cloths (or Deco+ range) provide cover for your crops from 80% and up to 90% shade and come in a variety of colours.

The PlusNet 80% decorative range is ideal for projects where you require more shade like car ports or lapa covers. The Deco+ range is perfect for camping as you might consider using this as a privacy screen, a ground sheet or a cover around your boma area. The 80% decorative net has a UV block of 80% and provides 76% shade.

The 90% decorative range manufactured by PlusNet is specifically made for the African commercial market. We supply to hardware stores nationwide and from our factory store direct to the public.

BUSINESS

As the leading manufacturer of agricultural shade net, the PlusNet shade net product line will open up a spectrum of new and evolving opportunities for new product variants. Whether you provide shade net for vegetable tunnels, shade houses or creative 'green' initiatives, the wide range of PlusNet netting offers the client great opportunities at the best possible price.

MINI NET TUNNELS

Mini Tunnels are the quickest hassle-free infrastructure available when endeavouring to open a micro agricultural business. Net tunnels are the ideal portable, affordable do-it-yourself infrastructure for instant shade for your livestock or small gardening business. Shade tunnels come in various sizes and are simple to assemble.

The PlusNet Team is ready to assist you with your net-related queries or projects. For more information on the products, visit www.plusnetgeotex.co.za or contact us by email on nets@plusnet.co.za for your quote today.

SPECK X

SPECK WATER MAINTENANCE

made easy

As a leading manufacturer of filtration and circulation systems in South Africa, and across the world, our range of reliable units meet the needs and requirements of various Agricultural operations. SPAAR KOSTES EN VERHOOG PRODUKTIWITEIT SONDER DAT DIT JOU 'N PLAAS SE GELD KOS!

alububble®
RADIANT HEAT BARRIER

So waarom is insulasie so noodsaaklik vir jou pluimvee en gewasse?

Goeie insulasie beheer die hoeveelheid hitte, vogtigheid, koue en kondensasie wat oorgedra word van die buitekant na binne en help om roes, skimmel en swamme te voorkom.

VOORDELE:

- Produk is lig en maklik om te instaleer.
- Lang lewensduur.
- Blok stralende hitte, vogtigheid, klam lug en swamme.
- Spaar krag gebruik, wat sodoende geld bespaar op verhitting en verkoeling.
- Beskerm die omgewing deur minder vrystelling van kweekhuis gasse.
- Verbeterde produktiwiteit weens gunstige omstandighede.

POWERED BY
Kubota

SAADBEHANDELING MET ecoANALYTICS

Nemex is ontwikkel as 'n saadbehandeling met 'n verskeidenheid mikrobies en mikro-elemente. Die gebruik van Nemex help u plante nie net om vinniger te ontkiem nie, maar help ook om die wortelmasse en gemiddelde opbrengs te verhoog. Omdat Nemex al aan die wortelsone is, terwyl dit ontkiem, kan die vrylewende stikstofbinders met die aanvang van die werk begin, namate die wortels ontwikkel om u plante lewe te gee.

Toepassing is uiters maklik en dit is nie nodig om 'n soort kleefmiddel te meng of te gebruik nie. U skeur die verpakking net oop en voeg 50g per 25kg saad of 100g per 25kg fyn saad by. Teen rondom R100,00 per 50g behandeling kan dit net 'n oorwinning in u guns wees.

© HES 004 SA

KWALITEIT STAALWERK

'n "Verskuifbare Lam Afrondings Kraal" is n 6m x 4.5m x 1.5m hoë struktuur met 300mm x 100mm wiele. Dit is verskuifbaar grootliks vir higiëniese doeleindes, maar ook sodat indien dit op weiding geplaas word, dit oorbeweidings voorkom.

Daar kan tot 40 lammers op 'n slag in die kraal wees. Addisionele water- en voerbakke kan aan die kant van die kamp geheg word sodat geen persone die kraal hoef binne te gaan nie.

ONS MAAK:

- Motorafdakke
- Hekkies
- Balustrades
- Staal meubels
- Omheinings
- Tenkstaanders
- Staal strukture
- Toerusting vir plaashantering

Knowledge grows

QUALITY PHOSPHATES FOR QUALITY RESULTS.

At Yara Animal Nutrition South Africa we believe that safe food starts with safe feed. This necessitates striving towards the highest performance and ethical standards and practices in every facet of our business.

The GC-Mark (Global Conformance Mark and Certification) "Ethical Conformity" certification, the AA1000 Independent Statement, and the Global Certification of Compliance to Verified Hygiene Management, were awarded to us by DQS as tangible proof of our commitment to protecting human rights, and ensuring fair work practices and safe working conditions for employees.

We are the first-ever feed manufacturing company in Africa and in the world to receive this certification – further acknowledgement of our on-going commitment to sustainability and longterm performance.

Our site in Durban was also awarded the Global Safety award 2020 within the Yara Group for our outstanding safety performance during the year showing a significant improvement in its safety culture.

The best choice in animal nutrition is also the ethical one.

Visit our website and partner with us today.

Poultry
Solutions**

© MESS COON SA

**From the Farmer,
To the Farmer**

**Agricultural
poultry solutions
for a productive,
sustainable future**

What's in the name?

Africa

The African continent will be our focus point for marketing and distribution. The head office would be situated in South Africa.

Poultry

Although poultry would be our main priority we are also dedicated to any other agricultural project.

Solutions

To supply products is easy, but to find a solution to a specific need can be tricky. Our expertise in this area is unmatched!

DURABLE. FLEXIBLE.

BAK-CON-MAT
CUSTOM MADE CONVEYOR MATS

CUSTOM-DESIGNED RUBBER BIN MATS FOR YOUR BAKKIE!

Our mats are durable and slide resistant. They're flexible and double up as sand tracks under your wheels when you get stuck. They protect your bakkie against scratches and dents. Their aerated designs prevent water build-up, so no rust. They absorb any heavy load and spread the weight evenly. And they stay put when you unload.

MADE TO OUTLAST ANYTHING

- Strongest and most versatile rubber bin mat on the market.
- Non-slip surface to keep your cargo from sliding around while driving.
- Elevated design to keep moisture away from your load.
- Elevated design to absorb sudden impacts.

FERTASA

Fertilizer Association of Southern Africa

FERTASA, CERTIFIED CREDIBILITY.

**WE STAND FOR THE PROTECTION OF
THE SUSTAINABLE USE OF FERTILIZER.**

**FERTASA AND ITS MEMBERS ARE COMMITTED TO THE PROMOTION OF
SUSTAINABLE SOIL FERTILITY AND ENHANCED PLANT NUTRITION.**

Fertasa strives to provide information on fertilizer and crop related topics. Apart from assistance with fertilizer applications, queries relating to fertilizer usage, plant nutrition and soil fertility usage, plant nutrition and soil fertility are referred to our Technical Advisers or Subject Matter Specialists for their expert opinions and advice.

Member companies and others are encouraged to share their experiences in proven techniques and novel approaches in ensuring social, environmental and economic sustainability for all.

SCAN ME

WHO ARE WE?

- A code of conduct.
- A set of standards audited by an independent compliance management body.
- Quality products.
- Relevant scientifically-based recommendations.
- Continual learning and improvement.
- Complying with all legal requirements.

Structure of Fertasa

Fertasa is managed and directed by a Board of Directors who are elected by and representative of the ordinary members. The Board of Directors report to the Management Committee which comprises representatives from all ordinary and affiliate members. The Management Committee appoints operational committees to attend to various aspects of the business of Fertasa.

Purpose

Fertasa is a recognised and preferred body aimed at promoting the image of the fertilizer industry through:

- Promoting the integrity of each member and building preferential trust for their products and services.
- Enhancing and protecting the interest of its members through effective engagement with government and organised agriculture.

Mission

To provide a credible platform to promote the responsible and sustainable use of fertilizers.

Vision

To be recognised as the representative voice for the fertilizer industry and as the stamp of approval for responsible and sustainable soil fertility and plant nutrition in Southern Africa.

Board of Directors

The Board of directors manages and directs the business and affairs of Fertasa. The Board comprises six (6) directors, and one (1) executive director (the Chief Executive Officer of Fertasa).

The directors are elected by the ordinary members with equal representation from both smaller and larger member companies.

Core Functions

- Actively promote the agro-economic and environmentally accountable fertilizer and aglime practices;
- Develop a positive public awareness and acceptance of the need for fertilizer and aglime use in food production;
- Improve the operating environment within which its constituent industries operate in a spirit of free enterprise and fair trade;
- Assimilate, adds value to and disseminates fertilizer and aglime related information;
- Provide a discussion forum for its members and other parties on all aspects relating to fertilizer and aglime distribution, agronomic advice and product quality.
