EDITOR'S LETTER

Thank you for picking up the February | March 2022 copy of the AGRIFOODSA Magazine.

It's the month of love and that's something to celebrate. Whether it be brotherly love, maternal love or romantic love, February reminds us of creative and special ways to show and tell others that they are meaningful to us, that we appreciate them, and that they are loved.

This month we're showing some love to our cover featured advertiser, World Focus Agri. World Focus Agri will help you enhance plant vitality, while protecting the environment and restore your land. They provide support for the agricultural community, maximizing harvests of all crops through the process of introducing a natural product into the biological lifecycle. They concentrate on developing and producing organic, as well as biologic growth stimulants and enhancers via root and leaf applicants. World Focus changes the conventional view of plant protection to plant health via the biology. To find out more about their products and services, go to www.worldfocusagri.co.za.

In celebration of Valentine's Day, be sure to check out our bi-monthly competition on www.agrifoodsa.info/competitions to stand a chance to win a R1000 Takealot.com voucher sponsored by MES Consultants South Africa.

Apart from the magazine, be sure to have a look at our offerings on the AGRIFOODSA.INFO website (www.agrifoodsa.info), and find us on all major social media platforms.

To sign up to our bi-monthly newsletter, pop an email over to info@agrifoodsa.info.

In closing, I encourage you to stop and think about all the ways you can show love in your day-to-day dealings with others. Be unselfish for the month of February. Just try it. Spend more time making those around you happy. Smile and say hello to strangers. Be patient; be kind. There is more joy in giving than in receiving—of this I'm sure.

www.worldfocusagri.co.za

Address: 9 Silver Crescent, Delmas, 2210

WEALTH CREATION IS OUR MAIN OBJECTIVE.

WEALTH TO NATURE, WEALTH TO THE FARMER.

The objective is twofold namely wealth to nature, therefore the slogan "NURTURE NATURE" and secondly wealth to our client, the farmer, by optimizing production.

World Focus is a company situated in Delmas, which is in the middle of the maize production area in the Highveld of South Africa, also only 60 kilometres away from the OR Tambo International Airport, the largest airport in South Africa.

World Focus concentrates on developing and producing organic as well as biologic growth stimulants and enhancers via root and leaf applicants.

World Focus changes the conventional view of plant protection to plant health via biology.

AT VAN SCHALKWYK
Marketing Director

"Fifteen years ago, we started investigations and study of micro-organisms and the help that nature can provide to the farmer to get optimum crop production and welfare. We also started with the application of micro-organisms on land directly on the crops, with unpredictable and sometimes catastrophic results.

We then moved the study to the reason why we sometimes got positive results when living organisms were applied to the crop on land. The result is, we now do the biology in the factory in Delmas under controlled conditions.

From there Epipolthiedioperazynein (ETP), a natural enzyme is extracted and used as the active ingredient in a plant growth stimulant, called Gliogrow. Gliogrow is the product of many years of work with a registration in 2009. From here a variety of products, among other things Gliomax, Gliosense, Glionut, Gliograin and Gliocane • all registered products.

During 2012, we made a biochemical engineer part of our business and his first assignment was, facilitating the optimal application of Agricultural Lime. The outcome of the assignment is ultra-fine or micronized lime/gypsum (CaCO_3 , MgCO_3 , CaSO_4) which is not in the place for normal liming but bring other options of applying and usage of lime to the farmer. Micronized lime is parent rock limestone directly from the mine processed in Delmas to a micro-fine milled product. (5% 1μ, 15% s

The micronized products are also registered with the Department of Agriculture and Fisheries under Act 36 of 1947 with B-numbers.

Our Gypsum is of the purest source known in South Africa. During the past seven years, we also develop a foliar-feed range, where the nutrients are chelated with an organic acid and various amino acids.

This range is called the Complex Super Range. During the past twelve years, we established a market in various production areas in South Africa, Namibia, Zambia, Mozambique and Malawi".

Vision:
"Creating Wealth by using Innovative technology".

Mission:
"Management of plant energy, enhancing soil and plant health, using different ranges of innovative products".

"Thank you for your interest and support".

JOE VAN DER MERWE
Financial Director

"The pressure to produce more and better-quality food for the increasing population of the world, together with the ever-increasing input cost burden on farming, highlights the need for Innovative farming products and practices.

Because of all the technological advances being made in agriculture and the impact thereof on energy and water expenses, crop and land management as well as yield, agriculture is in the process of experiencing a major leap towards precision farming methods.

With these advancements, our company identified the opportunity to research and to develop technologically advanced products for tile agricultural industry. Cost saving, waste reduction and soil quality, as the driving factors, lead to the development of micronized lime. Packing material waste is minimized, dried product leads to reduced volume and weight transported.

The result of reduced application volumes is reduced application cost. The product is compatible with all the precision farming equipment and is a valuable commodity for soil quality management. Micronized lime is applied with standard or precision spray applicators and moves lime to the precision commodity list.

Our production equipment was imported from leading international manufacturers and specifically built for micronized milling application. The plant has sufficient capacity to supply more than tile expected demand for the product in tile local market.

The benefits thereof have been recognised worldwide, increasing the demand for Micronized lime, especially In Africa where transport makes out a huge portion of production costs.

World Focus Agri products will help you enhance plant vitality while protecting the environment and restoring your land.

We provide support for the agricultural community, maximizing harvests of all crops through the process of introducing a natural product into the biological life cycle".

The Council regulates the occupations of fresh produce, export and livestock agents and maintain and enhance the status and dignity of those occupations and the integrity of persons practicing those occupations, according to Section 9, Agricultural Produce Agents Act, 12 of 1992.

WHAT WE DO?

Fresh Produce Agents

Who acts on behalf of a principal, by selling the principal's produce to buyers such as hawkers, wholesalers and retailers. Most agents operate on fresh produce markets. Prices of fresh produce is not predetermined but discovered in terms of the supply and demand principle.

Livestock Agents

Livestock agents act on behalf of a principal and their income is based on commission or a fee, paid by the producer for services rendered. Section 16 (1)(b) of the APA Act indicates that no person shall perform any act as a livestock agent unless he or she is registered with APAC.

Export Agents

Export agents act on behalf of producers and their income is based on commission or a fee, paid by the producer for services rendered. Section 16 (1)(a) of the APA Act indicates that no person shall perform any act as an export agent unless he or she is registered with APAC. Export agents can voluntarily register with the Fresh Produce Exporters Forum (FFEF).

PlusNet has been in the shade-net business for 26 years. Over the years we have learned what it takes to manufacture and supply high quality nets. We believe in our product and therefore every roll of shade net manufactured by us comes with a 10-year warranty against sun degradation.

Our agricultural net is specially designed for the African sun and helps to:

- 1) Provide your orchard with protection against nature's harsh elements
- 2) Reduce water usage by creating a microclimate within the net structure
- 3) Contribute to an increase in yield
- 4) Improve crop quality.

PlusNet manufactures and supplies 20% white agricultural nets which is suitable for covering:
Lettuce, Celery, Apples,
Grapes, Berries, Citrus, Avos

Agri Solutions

Ctrack's tracking solutions help farmers save on costs and improve performance through better planning and decision making regardless of crop type, farm or fleet size. By providing critical information about your equipment, you can efficiently manage your assets, time and

money investment. Our suite of GPS tracking devices are built for the often rough and remote conditions in South Africa so you can rest assured that your agricultural equipment will always be properly monitored.

Features:

-  Machine usage (operating hours)
-  Real-time alert (geo zones)
-  Pattern of use (direction when used)
-  Potential asset theft or tampering alerts

OLI VIBRATORS

EFFICIENT DISCHARGE SOLUTION

©MES CON SA

DESIGNED FOR AGRICULTURE

OLI OFFERS TECHNICAL ADVICE WITH PRODUCT SIZING

- PRODUCT FLOW AIDS: HOPPERS, BINS, SILOS & CHUTES
- VIBRATING SCREEN APPLICATIONS

OLI'S PRODUCT RANGE INCLUDES:

- Electric motor vibrators
- Pneumatic linear & rotary vibrators
- Aerators
- Hydraulic vibrators
- Pneumatic hammers

OLI South Africa (Pty) Ltd

+27 (0) 11 392 1054 | Peet Eksteen: +27 (0) 60 564 5560

Sales & Enquiries: sales.southafrica@olivibra.com

www.olivibra.com

OLI IS THE WORLDWIDE LEADER IN INDUSTRIAL VIBRATION TECHNOLOGY

MAKING BUSINESS SIMPLER FOR CUSTOMERS WHILE GOING GLOBAL WITH A FIRST-CLASS PRODUCT HAS PROVED SUCCESSFUL IN MAKING OLI THE WORLD'S TOP SELLING COMPANY OF ELECTRIC EXTERNAL MOTOVIBRATORS.

WHEN YOU NEED IT, WHERE YOU NEED IT

As a global player in industrial vibration technology, with three manufacturing sites and eighteen trading subsidiaries, it is OLI's goal to provide excellent value to our customers.

OLI has been committed to delivering high-quality market-orientated products since being founded in 1961, but is aware that excellent customer service is of pivotal importance. The OLI product is distributed in Southern Africa by its subsidiary in Gauteng, South Africa.

The OLI product meets the high demands of the South African climate. Its high-quality products and equipment that can withstand our harsh operating environment. As a strong believer in innovation, OLI is constantly striving to be ahead of the curve.

It is this drive for innovation that allows us to now offer stainless steel motors to industry for clean and efficient plant operation.

We also offer a range of flanged mounted electric vibrators, specifically designed to be retro-fitted to existing equipment in a number of industries and sectors.

Our other offerings - pneumatic hammers and linear pneumatic vibrators - reduces numerous material flow headaches in plants. Identifying the customers'

needs is a priority; achieving a partnership built on trust is the reward. By supplying competitive, high-quality products for wide-ranging applications, OLI combines performance and reliability by adapting to the ever-changing market.

The key centrepiece of OLI's business strategy is rapid stock delivery, any time, any place in the world. With its skilled competence and valuable knowledge of the industry, OLI is a credible expert when it comes to assistance in finding the most suitable solution to each individual customer's request.

As all OLI's products are market-orientated, this affords the company knowledge of numerous applications and industries.

WHEN YOU NEED IT, WHERE YOU NEED IT!
THE MISSION STATEMENT THAT GIVES OLI THE EDGE OVER ITS COMPETITORS

**WE DELIVER A SUPERIOR AND PERSONALISED
FREIGHT AND LOGISTICS SERVICE**

VEILIGE, DOELTREFFENDE EN BETROUBARE VRAGBESTUUROPLOSSINGS!

Die onderneming beskik oor die kennis en kapasiteit om die hele waardeketting van 'n kliënt te bestuur en te beheer.

Sedert die ontstaan in 2006 het LTG net gegroei en hoër hoogtes bereik. Vandag, 16 jaar later, kan LTG geklassifiseer word as 'n betroubare en uitstaande logistieke vennoot.

LTG sal enige maatskappy met logistieke behoeftes bystaan met koste effektiewe oplossings en kundige advies. LTG is altyd voorbereid vir enige besendings, hetsy seevrug, lugvrug of padvervoer behoeftes. Dit kan invoere, uitvoere of lokale vrug wees.

Ons kundige span kan enige Doeane navrae, aansoeke en klarings ook behartig. Met kantore in Rosslyn en Pomona het LTG die nodige infrastruktuur om aan al ons kliente 'n puik diens te lewer.

LTG glo in sterk, eerlike en langdurige verhoudings met sy kliente. As lede van WCA (World Cargo Alliance) groep het ons toegang tot duisende agente wêreldwyd wat goeie diens verseker.

Dienste sluit in, maar is nie beperk nie tot:

- Vragverskeping.
- Seevrug.
- Lugvrug.
- Pad- en spoorwegdienste (toegewyde en gedeeltelike vrugte na Afrika).
- Inklaring | Advies.
- Pakhuise.
- Verspreiding.
- Globale konsolidasie dienste.
- Enterprise Resource Planning (ERP) oplossings.

Die onderneming bied ook dienste met toegevoegde waarde, soos:

- Verpakking.
- Herverpakking en sub-samestellings.
- Sterk klem op kliëntediens.
- Koste-mededingendheid.
- Risikobestuur.

Ultrasol[®] K Plus

Potassium nitrate

the preferred K and N source

Highly water-soluble
product for fertigation

Chloride free potassium

100% plant nutrient
formulation (N and K)

Increases in
yield and quality

Easily absorbable
foliar potassium

Low salt index

Low risk foliar burn

Ultrasol[®]

K Plus

- Potassium is the main nutrient affecting uniformity of ripening, colour, lycopene content, good shape, sugars (Brix), organic acids, hollow fruits (puffiness), taste and aroma.
- Potassium optimizes water use efficiency and decreases blotchy ripening and greening.
- Potassium decreases puffiness and is essential in nitrogen metabolism.
- Optimizing nitrate-nitrogen reduces blossom-end rot.
- Optimizing nitrate-nitrogen increases fruit firmness and storage.

Consult your local agronomist for advice concerning rate and frequency of application.

KWALITEIT STAALWERK

'n "Verskuifbare Lam Afrondings Kraal" is n 6m x 4.5m x 1.5m hoë struktuur met 300mm x 100mm wiele. Dit is verskuifbaar grootliks vir higiëniese doeleindes, maar ook sodat indien dit op weiding geplaas word, dit oorbeweiding voorkom.

Daar kan tot 40 lammers op 'n slag in die kraal wees. Addisionele water- en voerbakke kan aan die kant van die kamp geheg word sodat geen persone die kraal hoef binne te gaan nie.

ONS MAAK:

- Motorafdakke
- Hekkies
- Balustrades
- Staal meubels
- Omheinings
- Tenkstanders
- Staal strukture
- Toerusting vir plaashantering

BAK-CON-MAT
CUSTOM MADE CONVEYOR MATS

TOUGH, YET FANCY

DURABLE. FLEXIBLE.

CUSTOM-DESIGNED RUBBER BIN MATS FOR YOUR BAKKIE!

Our mats are durable and slide resistant. They're flexible and double up as sand tracks under your wheels when you get stuck. They protect your bakkie against scratches and dents. Their aerated designs prevent water build-up, so no rust. They absorb any heavy load and spread the weight evenly. And they stay put when you unload.

MADE TO OUTLAST ANYTHING

- Strongest and most versatile rubber bin mat on the market.
- Non-slip surface to keep your cargo from sliding around while driving.
- Elevated design to keep moisture away from your load.
- Elevated design to absorb sudden impacts.

SAADBEHANDELING MET ecoANALYTICS

Nemex is ontwikkel as 'n saadbehandeling met 'n verskeidenheid mikrobies en mikro-elemente. Die gebruik van Nemex help u plante nie net om vinniger te ontkiem nie, maar help ook om die wortelmasse en gemiddelde opbrengs te verhoog. Omdat Nemex al aan die wortelsone is, terwyl dit ontkiem, kan die vrylewende stikstofbinders met die aanvang van die werk begin, namate die wortels ontwikkel om u plante lewe te gee.

Toepassing is uiters maklik en dit is nie nodig om 'n soort kleefmiddel te meng of te gebruik nie. U skeur die verpakking net oop en voeg 50g per 25kg saad of 100g per 25kg fyn saad by. Teen rondom R100,00 per 50g behandeling kan dit net 'n oorwinning in u guns wees.

FERTASA

Fertilizer Association of Southern Africa

Reg. Nr. 1971/000012/08 | VAT Reg. Nr. 4830104164

FERTASA,
CERTIFIED
CREDIBILITY.

FERTASA

Fertilizer Association of Southern Africa

Tel: +27 (0) 12 349 1450

Email: general@fertasa.co.za

WE STAND FOR THE PROTECTION OF THE SUSTAINABLE USE OF FERTILIZER.

Fertasa strives to provide information on fertilizer and crop related topics. Apart from assistance with fertilizer applications, queries relating to fertilizer usage, plant nutrition and soil fertility usage, plant nutrition and soil fertility are referred to our Technical Advisers or Subject Matter Specialists for their expert opinions and advice.

Member companies and others are encouraged to share their experiences in proven techniques and novel approaches in ensuring social, environmental and economic sustainability for all.

Structure of Fertasa

Fertasa is managed and directed by a Board of Directors who are elected by and representative of the ordinary members. The Board of Directors report to the Members which comprise representatives from all ordinary and affiliate members. The Members appoint operational committees to attend to various aspects of the business of Fertasa.

Purpose

Fertasa is a recognised and preferred body aimed at promoting the image of the fertilizer industry through:

- Promoting the integrity of each Member and building preferential trust for their products and services.
- Enhancing and protecting the interest of its members through effective engagement with government and organised agriculture.

Board of Directors

The Board of directors manages and directs the business and affairs of Fertasa. The Board comprises six (6) directors, and one (1) executive director (the Chief Executive Officer of Fertasa).

The directors are elected by the ordinary members with equal representation from both smaller and larger member companies.

Core Functions

- Actively promote the agro-economic and environmentally accountable fertilizer, bio-fertilizer and aglime practices;
- Develop a positive public awareness and acceptance of the need for fertilizer, bio-fertilizer and aglime use in food production;
- Improve the operating environment within which its constituent industries operate in a spirit of free enterprise and fair trade;
- Assimilate, adds value to and disseminates fertilizer, bio-fertilizer and aglime related information;
- Provide a discussion forum for its members and other parties on all aspects relating to fertilizer, bio-fertilizer and aglime distribution, agronomic advice and product quality.

Who are we?

- A code of conduct.
- A set of standards audited by an independent compliance management body.
- Quality products.
- Relevant scientifically-based recommendations.
- Continual learning and improvement.
- Complying with all legal requirements.

www.fertasa.co.za

Fertasa and its members are committed to the promotion of sustainable soil fertility and enhanced plant nutrition.
