EDITOR'S NOTE

It is with heaps of pride and oodles of enthusiasm that AGRIFOODSA presents the second edition of our Suppliers Guide Magazine.

After the success of our first edition, we have strived to boost our content and expand our distribution to please farmers and agricultural enthusiasts from every corner of our beautiful country. Diversity is a buzzword we intend to explore by featuring a variety of advertisers to suit every need that may arise in the ever-expanding agricultural and secondary industries.

We have gone through some structural changes in preparation for this edition. Firstly, I would like to thank Leon Schmahl for stepping up as interim editor-in-chief for our May/June 2016 issue. We are thrilled to utilise his methodical work ethic in his new role as production manager. Secondly, Anel Botha has moved on from our company and we would like to wish her continued success in her new endeavour.

Lastly, we have welcomed two new sales consultants, Nicole Muller and Zelda Dalhouzie, to our little family. As Henry Ford said, "Coming together is a beginning; keeping together is progress; working together is success." Let's do it together.

We have launched this innovative supplier's guide in a time when people are talking about the death of print and the decline of the agricultural industry; but through the support of our esteemed advertisers, appreciated co-ops and, most importantly, you, the reader, we have exceeded our own expectations. AGRIFOODSA, in association with MES Consultants South Africa, would like to thank you for your continued support.

To ensure that we, too, surpass your expectations, I would like to encourage you to contact us via email or snail mail with any suggestions or requests to ensure that a better product and service is delivered to you.

Chantell Schmahl

WE PROVIDE EFFECTIVE WATER MANAGEMENT SOLUTIONS

Our services include a variety of specialised processes and systems, each designed to achieve the optimal outcome.

SPECIALISED PLANNING IS REQUIRED TO GAIN OPTIMAL USAGE OF FIELDS AND THE HIGHEST YIELDS.

WHY CHOOSE AGRI DRAINAGE?

Agri Drainage follows a holistic approach to drainage. The field is analysed as a whole and a complete solution offered, from land forming (to prevent ponding), contour and waterway building (to assist surface drainage) land levelling (for effective water utilization) all the way to subsurface drainage to prevent water logging.

Jy plant binnekort... doen dinge hierdie seisoen anders!

BETER STIKSTOF BESTUUR

360 Y-DROP®

Bestuur jou grootste uitgawe (stikstof) deur dit te plaas as jy weet wat die seisoen gaan maak.

Plaas stikstof waar en wanneer jou plante dit benodig.

Laat seisoen stikstof-toediening is nou moontlik.

Presisie stikstof-toediening vir optimale benutting.

Bestuur jou insette en verlaag jou risiko hierdie seisoen.

Verhoog opbrengs en verlaag jou insetkoste!

KRY MEER UIT JOU CHEMIE

360 UNDERCOVER®

Met Undercover is presisie plasing van swam- en insekdoders vir optimale effektiwiteit moontlik.

Ook, presisie toediening van blaarvoedings onder die blaar (waar die meeste huidmondjies is).

Stuit siektes in hulle spoor deur die oorsprong van siektes te teiken met presisie toediening van swam- en insekdoders.

Verlaag insetkoste en bevoordeel die omgewing.

No **FIRE** can
match these
FIGHTERS!

Get peace of
mind backed
by a factory
guarantee.

Fires are a reality. Be prepared, get a HIGH PRESSURE FIRE FIGHTER you can rely on, that uses minimum water!

Our machines are quick to set up and simple to use, saving you valuable time in case of a fire outbreak. Each Fighter can also be transported by a small 3-Quarter-Ton or 1-Ton bakkie, ensuring an effective, no-fuss solution for most municipalities or farmers.

THE Subaru & THE RATO

- 620L Step Tank design, gives a low centre of gravity
- Inside black coating to prevent Algae growth, baffles ensure further stability to the transporter.
- 20m hose on galvanised hose reels
- Single and double hose reels available
- 5 - 7 horse power petrol engines, diesel options available.
- Venturi kits optional to re-load water to the tanks. Suitable for use with cattle dipping and as a insecticide spray.

Don't let the recent drought wreck more havoc on your livelihood, call us now!

BISA
BIO-INSECTARIES
SOUTH AFRICA

OMGEWINGSVRIENDELIKE PLAAGBEHEER

Onoortreflike gehalte en professionele diens – in Suid-Afrika geteel vir Suid-Afrikaanse vlieë

Hoe werk hierdie program?

Vliegparasiete (*Muscidifurax raptor*) word in 'n insektarium geteel en is beskikbaar in pakkies van 5 000. Hierdie parasitiese wespes word gereeld by vliegbroeiëre op die plaas losgelaat. Die volwasse wesp steek die papie van die vlieg, dood dit in die proses en lê eiers in die papie. Die eiers teer op die dooie vlieg en ontwikkel in 'n wesp. Die wespes broei binne 19-21 dae uit en begin dan die soektog na vliegpapies as voedsel en waarin hulle kan eiers lê.

www.bioinsectsa.com

BISA bied u:

Vliegbeheer op die natuurlike manier.
Langtermyn ekonomiese voordele.
Minder chemiese besoedeling. 'n
Bemarkingsvoordeel deur omgewings-
vriendelike landbouproduksie.

Kwaliteit en Diens

Kuilvoer Kultivars

LS 8537

Medium lang groeiseisoen baster
Uitstekend vir kuilvoer
Goeie agronomiese eienskappe
Wyd aanpasbaar

LS 8518

Medium groeiklas
Hoë potensiaal baster
Baie goeie agronomiese balans
Wye aanpasbaarheid
Uitstekende opbrengs

LG 3607 Y

Vinnige baster
Uitstekende opbrengs in sy groeiklas
Baie goeie staanvermoë
Stabiele baster
Droog vinnig af

LS 8538 R

Vinnige afdroging
Goeie agronomiese balans
Wyd aanpasbaar
Baie goeie staanvermoë
Hoë opbrengs

Uitstekende

Sojaboon Kultivars vir Wisselbou

LS 6240 R

Uitstekende staanvermoë
Aangepas by wye en nou rye
Goeie peulhoogte vir 'n vinnige groeiklas
Uitstekende opbrengs potensiaal

LS 6146 R

Wye aanpasbaarheid en goeie opbrengsvermoë
Goed aangepas in veral die koel en gematigde dele
Goeie staanvermoë en peulhoogte

LS 6248 R

Medium—Vinnige kultivar met wye aanpasbaarheid
Goed aangepas in koel tot gematigde gebiede
Goeie staanvermoë en peulhoogte

'n Goeie keuse vir kommersiële sowel as kuilvoer kultivars

Die keuse van kultivars lê in basiese beginsels nl.

- ◆ Omgewing
- ◆ Plantdatum
- ◆ Plantpopulasie
- ◆ Opbrengs

Die keuse van 'n kuilvoer kultivar gaan oor die graan-plant verhouding met goeie graan opbrengs. Basters met hoë opbrengs soos LS 8537, LS 8518 of LG 3607 Y, is gewilde groeiklas basters. Toleransie tot plant- en kopsiektes, speel 'n groot rol in die sukses van opbrengs. Maak 'n ingeligde kultivar keuse met die ondersteuning en bystand van kundiges en kontak Link Seed (PTY) Ltd vandag.

How moist is your soil? | Sensetion single-pack

Use the Sensetion single-pack to measure soil moisture and use your smartphone or computer for the rest.

The Sensetion system is easy to install and consists of a monitor placed in the field and an app either downloaded to your smartphone or via the internet to your desktop.

- Benefits of the system include**
- Optimal irrigation advice for all your crops
 - Current soil moisture status of the field
 - Anytime, anywhere access on your smartphone
 - Easy to install with installation set
 - Includes 3 years' data and software subscription
 - High quality design with smart sensors inside
 - Powered by solar energy

Functional characteristics

- Height 141 cm
- Measuring range 25 cm
- Measuring depth 30 cm
- Integrated screw point
- Integrated data logger
- Including solar panel
- Communication through GPRS quad-band modem and SIM card

Loadtech leads in supplying quality weighing components

Loadtech Load Cells is one of the best known load cell manufacturers in South Africa.

When it comes to specialized weighing solutions the company has over 50 years collective experience.

Founded in 1987, Loadtech Load Cells has firmly established its reputation as a leader in quality load cell manufacturing.

Custom Designs

Whether your requirement is for custom weighing systems, applications such as force measurement, center of gravity determination or crane weighing systems, Loadtech will provide an innovative and economical solution, staying by your side long after the sale.

Accreditation

Loadtech Load Cells has an accredited explosion protection rating on various locally manufactured load cells.

Partners

The combination of own manufacture and the extensive range of products from Vishay transducers allows Loadtech Load Cells an unequalled degree of flexibility in offering weighing solutions.

Technical application assistance with regard to your specific needs, and attention to detail are unmatched in the industry.

We have the solution

RCL FOODS Animal Feed

gee jou meer as net 'n verskeidenheid van diervoeding.

Meer veevoer
na meer boere,
meer dikwels

By **RCL FOODS Animal Feed** is elke boer belangrik en dra ons jou belange op die hart ... juis omdat jy en jou diere net die beste verdien. As diervoerspesialis hou ons jou op koers met die beste en grootste verskeidenheid in diervoeding. Derhalwe kan jy staatmaak op die wetenskaplike en tegniese kundigheid van ons verkoopspan; op beter produkinnowasie, beter voedingsprogramme en beter dienslewering. Met ons twee voorste handelsname, **Molatek** en **EPOL**, onder een dak, trek jy boonop voordeel uit ons produkverskeidenheid vir 'n wye verskeidenheid dierspesies. Ons produkte dek vleisbeeste, melkbeeste, skape, bokke, wild, pluimvee, varke, perde, volstruise en nog meer.

Jy hoef dus net RCL FOODS Animal Feed te skakel vir al jou voerbenodigdhede.

NEED FIRE CONTROL? LET HUSQVARNA HELP YOU!

HUSQVARNA 570BTS BLOWER

65.6 cc fl 2.9 kW fl 378 km/h fl 11.2 kg

Husqvarna 570BTS is a powerful commercial back pack blower designed for demanding tasks. Large air flow and high air speed are provided by an efficient fan design together with the powerful X-Torq® engine. Commercial grade air filter gives long operating time and trouble free use. The harness has wide shoulder straps.

HUSQVARNA 580BTS BLOWER

75.6 cc fl 3.1 kW fl 330 km/h fl 11.8 kg

One of the most powerful back pack blowers in the world, the Husqvarna 580BTS has earned its reputation as a highly effective fire control tool for foresters, farmers and land owners. Boasting the highest air flow of all blowers on the market today, the 580BTS also has one of the highest air velocities, making it ideally suited to extinguishing small or short grass fires as well as fuelling a wet or slow burning fire.

USED IMPLEMENTS & TRACTOR SPARES

Discount Used Tractor Parts was established in Delmas, Mpumalanga in 1985 and since then we have gone from strength to strength. Our primary business is the dismantling of tractor and combines obtained on auction and private purchase, to which we dedicate over 30 years experience. We are the largest spare parts factories in Africa, supplying new, and rebuilt parts for tractors and combines through a network of plus minus 190 co-op branches.

TODAY'S
FARMERS KNOW
MORE THAN
JUST FARMING.

A modern farmer faces many challenges and takes on different roles to overcome them. You're responsible for your farm, your workers, your assets, your home and your family. At Santam we understand just how much a farmer does. That's why we take an in-depth, scientific approach to protecting your crops and assets on and off the farm. Because we believe you deserve one-of-a-kind insurance. **For more information, call your broker or visit www.santam.co.za/products/agriculture. Santam. Insurance good and proper.**

GRAS VIR AFRIKA

Brachiaria Brizantha

Brachiaria

Matsuda het Marandu veredel onder Brachiaria MG-4 om meer droogtebestande eienskappe as Marandu te bied. MG-5 Victoria is ook 'n veredelde Marandu wat 'n beter opbrengs, droogtebestandheid en goeie hergroei na beweiding bied. Victoria kan in vleiagtige grond met swak dreinerings-eienskappe gevestig word. Dit is geskik vir droë lande met 'n opbrengs van 10 tot 14 ton DM/ha/jaar.

Pennisetum (banagras)

CARAJAS – 'n verbeterde banagras wat met saad gevestig kan word.

- Geselekteer vir 'n hoër droëmateriaalopbrengs, vinniger hergroei, hoër proteïene en beter verteerbaarheid.
- Hierdie olifantsgraskruising is uiters bestand teen koue en matig tot hoog droogtebestand.
- Baie smaaklik en uiters geskik vir beweiding, asook kuilvoer.
- Kuilvoeropbrengs van meer as 100 ton materiaal (40 tot 50 ton droog) per hektaar per jaar is moontlik onder ideale toestande.

Peulplante

Java is 'n meerjarige peulplant wat heeljaar baie saad produseer en dit voeg 150kg stikstof per hektaar per jaar terug in die grond. Die peulplant kan in arm grond gevestig word en het hoë droogteweerstand. Dit is smaaklik, het 'n proteïenwaarde van 18 tot 23% en lewer goeie hergroei ná beweiding.

Panicum Maximum (witbuffel)

Geskik vir besproeiing met 'n opbrengs van 19 tot 30 ton DM/ha/jaar.

Panicum Maximum-kruis

Panicum Maximum-kruis

Geskik vir wild en koue toestande. Opbrengs 15 tot 20 ton DM/ha/jaar. Aries is 'n hibried van *P. maximum Aruana* en *P. maximum Centauro*. Aries is koue- en droogtebestand en toon goeie hergroei na beweiding. Dit is 'n uiters smaaklike gras en geskik vir beeste, perde, skape en wild.

PERFECT WATER MANAGEMENT SOLUTIONS

Revamped **AGRIFOODSA.INFO** launching October 2016!

AGRIFOODSA
INFO

Get connected to the farmer... just a click away!

AGRIFOODSA.INFO is proud and excited to announce the launch of our titivated website.

With improved functionality and enhanced design, it promises to be a fundamental tool for farmers and enthusiasts of the agricultural and secondary industries in South Africa.

The new website affords the user the opportunity to read and download the AGRIFOODSA Suppliers Guide Magazine, offering additional exposure to our print advertisers.

There are advertising options to meet everyone's needs. Possibilities range from premium directory listings to banner adverts on the HOME page. All major players in Agri and food are able to get incredible coverage and marketing benefits at very reasonable prices.

Advertisers who appear in our Suppliers Guide have the opportunity to book premium listings on our website at a fraction of the standard price.

As part of the AGRIFOODSA.INFO website, advertisers will enjoy the following brand promotion:

- Google Search Engine Optimization of the AGRIFOODSA.INFO website;
- Advertising of the AGRIFOODSA.INFO website in various other Agricultural publications;
- Coverage on our Social Media pages; and
- Exposure through our monthly newsletter which will be e-mailed to 18,000 links across Southern Africa.

We are also presenting website advertisers with the opportunity to have broadcasts, special offers or short articles on new products and/or services posted to our brand new NEWS Page.

We are driven by **performance**,
passionate about **our clients**
and focussed on achieving results.

Look out for the fresh, innovative AGRIFOODSA.INFO website in October 2016.

For more information or to advertise, contact us today.

WWW. AGRIFOODSA.INFO
