Hello, dear reader!

Winter is in full swing and let me tell you, I really like winter. Now, don't get me wrong; it's not that I'm happy to get up whilst still cold and dark out. But it's relatively easy to like

winter here in Pretoria. Unlike other regions of the country, where the season means long stretches of gloominess, here days are usually filled with blue sky, sunshine, and warmer temperatures. I love to watch the muted landscapes, bundling up in warm clothes, and settling in for some good reading. That's where the June/ July 2018 edition of the AGRIFOODSA Magazine comes in.

We've compiled a selection of wonderful product & service providers in Agri & Food in South Africa in this 84-page issue. That also includes our cover page-featured advertiser, BIOMIN. As an animal nutrition company, BIOMIN develops and produces feed additives, premixes and services for healthy and profitable animals. Their solutions cover mycotoxin risk management and natural growth promotion for swine, poultry, ruminants and aquaculture. Be sure to keep your animals happy and healthy this winter with BIOMIN's range of products.

BIOMIN and many, many other advertisers can also be viewed on the AFSA Website (<http://www.agrifoodsa.info>) and Facebook page (<https://www.facebook.com/agrifoodsa>).

With select content like Boerate, Advertiser Showcases, recipes and funnies, as well as helpful & informative articles, news and fantastic competitions, you're sure to be entertained when the outside makes your insides shiver.

Remember to check out Facebook on Saturday mornings at 08:00 for the weekly competition where a Takealot.com voucher is up for grabs!

On a personal note, we'd like to congratulate our very own Johan Swartz on the birth of his first-born son. Little Cihan is incredibly adorable and certainly warms our hearts on frosty days.

Keep warm and enjoy what's left of the chilly season!

THE PROFIT CENTER

CONDITIONING:

Take advantage of early harvest premiums, reduce yield loss and save money by drying your own grain.

MATERIAL HANDLING:

Speed through unload and get back into the field with a gentle and efficient GSI bucket elevator.

STORAGE:

Increase marketing flexibility and capture your best price when the time is right.

Farming is never easy. It's even tougher when the market's more bust than boom. Skip the line at the elevator and plan for profit with a complete grain system from GSI.

TURN YOUR OPERATION INTO A PROFIT CENTER. VISIT GSI.AFRICA.CO.ZA

**LEWER OOR DIE HELE SUID-AFRIKA
GROOT PRODUK REEKS
VINNIGE LEWERING**

WORLD WIDE LEADERS IN

ELEPHANT GRASS CARAJAS

- Carajas is an improved Banagras that can be established with seeds
- Selected for high dry matter production
- Quicker regrowth with higher protein
- This elephant grass has a good cold and drought tolerance
- Tasteful and digests well and used for grazing and silage making

PANICUM MAXIMUM - ARIES

- It is a perennial forage grass with tussocks
- Great tillering capacity
- Narrow hairless leaves and light green color
- The main characteristic of this cultivar remains on its regrowth capacity after grazing
- It is very well accepted by beef cattle, horses, sheep and goats.
- High protein with a 70% digestibility and highly palatable

**PANICUM
MAXIMUM-**
MOMBASA & TANZANIA

PANICUM MAXIMUM - MOMBASA AND TANZANIA

- High dry matter producer with excellent digestibility
- Recommended for intense grazing pastures
- Direct grazing, hay making and silage making
- Used by beef and dairy cattle producers

PANICUM MAXIMUM - PAREDAO

- New improved panicum variety that produces higher quality plants that produce up to 30% more than most panicum varieties
- plant have an excellent palatability with a high drought tolerance
- direct grazing and silage making
- Is recommended for milk and beef production

TROPICAL PASTURE SEED

BRACHIARIA BRIZANTHA- MG 4

BRACHIARIA BRIZANTHA - MG 4

- Improved Marandu that can handle poor soil with a high drought tolerance
- Utilize direct grazing and hay making
- Good regrowth after grazing
- Cold of tolerance higher than Marandu

Brachiaria Brizantha MG-5

MATSUDA GENETICS 5

Victoria

BRACHIARIA BRIZANTHA - MG 5 VICTORIA

- Yields higher than Marandu cultivar
- Good drought resistance
- Tolerates poorly drained soils
- Good regrowth after grazing
- Very good option for the beef cattle production

4 GAME MIX

4 GAME MIX

- Improved handling through increased flow capacity of the seed
- Better protection against insects
- Better protection against seedling rot
- Extremely suitable for grass-eating wildlife

HYBRID LEGUME
JAVA

HYBRID LEGUME JAVA

- Java is a perennial twinning and creeping legume with stems
- Low demand in soil fertility
- Fixate up to 150 kg/ha Nitrogen per year
- Medium palatability which assures high persistence with high crude protein value
- Presents high persistence under grazing
- Very good seed producer setting seeds all year round

The Global Food Challenge

DOW AGROSCIENCES PARTNERS WITH YOU TO:

1 ENABLE YOUR PROGRESS

Today's technology can help you continually improve your farm for the future. We can work side-by-side with you to help you fully realize the benefits of today's crop protection innovations and technologies.

2 OPTIMIZE PRODUCTION

Growers need effective and innovative tools to manage insect pests, plant diseases and weeds that can diminish your yield, damage your crops, and affect food safety. Choosing the best products keep your crops healthy, productive and profitable.

**How Dow AgroSciences
is contributing to find
solutions for the
growing world**

Dow AgroSciences

3 KEEP YOUR LAND SUSTAINABLE

You want to take care of your land and your waterways to keep your farm productive for a long time, while doing your part to preserve the environment in your local community. We can help you manage resistant weeds, insect pests and plant diseases. Helping you deploy innovative management practices and support the health of your soil.

Dow AgroSciences is a global research and development company and a leader in the agro-chemical market. We are continuously developing solutions that balance human needs with the preservation of our environment.

KIRLOSKAR: COMMITMENT TO QUALITY AND ENVIRONMENT

Kirloskar Engines South Africa (Pty) Ltd was established in November 2003 and is authorized as the sole distributor of Kirloskar Diesel Engines and related products in South Africa, Mozambique, Zimbabwe and Botswana.

Having entered the South African engine market focusing on engines for general industrial applications, Mining Equipment and Diesel Powered Generating sets, Kirloskar Engines South Africa has already supplied more than 11 000 engines in South Africa and surrounds for various market segments.

They also offer extensive spare parts back-up, specialized service staff and also houses a workshop facility to support the product in the field.

The Kirloskar Brand is a 1.7 Billion US Dollar group of companies who are century old engineering pioneers specializing in areas of power, construction, mining, agriculture, transport, oil & gas and environment protection with a range of world-class industrial products and turnkey services.

Building on its core engineering strength with engineering excellence of more than 100 years, today its operations span a range of industrial equipment, from eco-friendly diesel engines, dual fuel engines, silent generating sets, diesel engine bearings & valves, air-conditioning, refrigeration equipment, water flow valves and water-pumps.

Any part of the world, whatever your pumping needs, the most dependable and reliable diesel pumpset comes from Kirloskar. Besides bringing prosperity to the South African farmer, these pumpsets have been greening the sands in Egypt, increasing rice output in

Laos and irrigating the remotest locations in Africa.

Being factory assembled pumpsets, it is sturdy in build and correctly aligned thereby ensuring long life. Its design and engine-pump matching features ensure the following:

- Consumes less fuel and oil - thus low running cost
- Low maintenance cost
- Hassle free starting
- Longer life
- Reliable performance
- 1 year warranty
- Easy availability of spare parts
- After sales service
- Available in a vast range (4hp to 10 hp), you will easily find the right pumpset to suit your equipment.

Visit the website www.kirloskarsa.co.za for more information on Kirloskar's wide range of products.

Kirloskar

PREDICTABLE UNIFORMITY

Value to your business

Best uniformity matters

- Consistent product weight ranges
- Efficient processing performance
- Best uniform 'as hatched' broilers
- Higher yield value
- Reduced product 'downgrade'
- Increased profits

ONE FAMILY.
ONE PURPOSE.

PEROXSIL™ Ag+

BENEFITS OF USING PEROXSIL™ Ag+

- ✓ Lower mortality rates
- ✓ Reduces antibiotic burden
- ✓ Improved daily weight gain
- ✓ Improves feed conversion ratio
- ✓ Unprecedented biofilm removal
- ✓ Improved profits and performance
- ✓ Improved health and immune system

Peroxsil™ Ag+ is a safe non-toxic powerful silver stabilised Hydrogen Peroxide water sanitiser that biodegrades to oxygen and water.

Highly effective in the removal of biofilm contamination, in water delivery systems ensuring total disinfection. Can also be used while birds are present.

Constant dosing of water lines on a 30 000 bird house costs less than R350 per month. Removing biofilm removes 99% of all micro-organisms resulting in clean safer water.

Under optimal conditions, 2 micro-organisms will multiply to over a billion in 13 hours, yet Peroxsil™ Ag+ effectively kills both gram positive and negative bacteria within minutes.

CONIGLIO RABBIT MEAT FARM BROWSING EXPERIENCE FOR

www.coniglio.co.za

If you are interested in rabbit farming you are at the right place when you visit our new site. Coniglio Rabbit Meat Farms specialises in stimulating a supply of quality rabbit meat products mainly for export and specific local markets. Please feel free to gather some more insights while browsing around or visit this link <https://goo.gl/FMhwak> for our full farming information pack; OR send an email to info@coniglio.co.za for a structured approach.

STEP 1

REQUEST INFORMATION ABOUT RABBIT FARMING OPPORTUNITIES IN SOUTH AFRICA...

- Send an email to info@coniglio.co.za expressing your interest in rabbit farming
- Supply your full name, contact number and the province you intend to farm in
- We will reply with the background and insights required to review the activities

STEP 2

ARRANGE A MEET AND GREET AT A FACILITY...

- Contact us at info@coniglio.co.za after you have reviewed the requested information
- Make an appointment to visit one of our facilities
- Meet with a farmer and experience a rabbit farming operation
- Evaluate building requirements and have an opportunity to ask questions related to farming operations
- Decide whether rabbit farming is for you

STEP 3

BOOK YOUR CONTRACT TRAINING COURSE...

- Contact us after or before your visit and reserve your seat for a training day by sending us proof of payment to info@coniglio.co.za
- We will confirm your seat and send you a tax invoice
- We will forward you an electronic copy of the training manual for your preparations, preparing your contract for signature and finalise your quota(s)
- Look at your housing requirements and finalise your layout

STEP 4

FINALISE YOUR EQUIPMENT ORDER AND START PREPARING YOUR RABBITRY...

- After you have reviewed the information supplied and have visited a facility you will have a good understanding thereof and would be able to indicate the size of operation you would like to set up
- You can finalise your order before or after the training by sending us proof of payment to info@coniglio.co.za
- We will confirm your order and send you a tax invoice
- We will place your equipment orders and manufacturing will commence
- After 60 to 90 days your housing structure should be ready and we will deliver your equipment in stages after which you will commence with setting up your rabbitry
- When completed you will collect your breeding stock from the closest facility
- We will assist with a phased approach to start up your operations, and support and assistance will be in place for the remainder of your contract
- We will eagerly await your first delivery

CONTACT US VIA EMAIL AT INFO@CONIGLIO.CO.ZA SHOULD YOU REQUIRE PERSONAL ASSISTANCE, AND WE WILL CALL YOU

HAS CREATED A COMPLETE NEW FOR OUR CONIGLIO FARMERS

Our website is dedicated to rabbit farming activities
and provides background and current operational insights

PREREQUISITES TO FARM

- Agriculturally zoned land
- A building or structure to house your animals
- Infrastructure (security, water and electricity)
- Rabbit farming / breeding equipment
- Breeding stock (production do's and commercial bucks)
- Farming Contract
- A person to take care of the farming operations (farmer)
- One labourer for every hundred production animals
- Transport to deliver your livestock to the rabbittoir or pickup point
- Commercial pelleted feed for rabbits and / or primary produced feed
- An Environmental Impact Study (if required)

POPULAR AROUND THE WORLD

Rabbit meat is produced and consumed all over the world is famous in many European, African and Asian communities. In some countries, it is a delicacy, and for some, it is as ordinary as chicken and an every day consumed protein.

It should be a bit of a surprise that it is the fifth most slaughtered animal in the world, outnumbering lamb, beef and goat, just three of the most popular proteins to the African continent except chicken, of course.

NO SPECIAL COOKING SKILLS REQUIRED

Special culinary skills are NOT required when cooking with rabbit meat and like with any other meat products only basic portioning and cooking knowledge is required.

NEW

We have also created a complete new browsing experience for our Rabbit Meat Buyers at www.buyrabbitmeat.co.za.

This site is dedicated to rabbit meat products and showcase various rabbit products promoting the culinary experience around cooking with rabbit meat.

Coniglio Rabbit Meat Farms specialises in stimulating the supply of quality rabbit meat products mainly for export and specifically targeted local markets.

**SATELLITE CROP
MONITORING
THROUGHOUT THE
YEAR**

WHAT IS GEOSCAN?

GeoSCAN is a program based on the integration of satellite images providing crop development and soil analysis of each individual field.

HOW DOES GEOSCAN WORK?

The platform allows you to conduct systematic monitoring of the entire vegetative cover by means of a vegetation index, sensitive to the chlorophyll content and the total aboveground biomass. This allows you to monitor the development of both arable crops and permanent crops.

Like and Share the Vantage SSA Facebook page and get a **FREE 60ha demonstration**

MAAK KRAGVOER VAN JOU KUILVOER

Bewaar die energie in jou kuilvoer natuurlik.

BIOMIN® BioStabil is 'n reeks kuilvoer-inokulante wat fermentasie in 'n breë kuilvoerspektrum (gras, lusern, graan-heelplante, klawer, mielie-heelplante, ens.) verbeter en versnel deur pH-waardes gedurende die inkuilproses vinniger te verlaag.

Sodoende word kuilvoerstabieleit tydens voer-onttrekking uit die kuilvoerbunker verbeter, selfs nadat die bunker oopgemaak is. Die resultaat is 'n hoër droëmateriaal-, energie- en voedingstofbehoud – 'n waarborg vir laer insetkoste plus hoër produksie en wins.

Kry meer besonderhede by www.biomin.net/kragvoer of skakel ons by 018 468 1455.

MES CONSULTANTS - 082 563 4427

Any size ZincAl dam, grain dam, ZincAl tank or lining can be manufactured on request. 0.8 to 1.2 mm ZincAl sheets with a life expectancy of 2 to 4 times longer than that of traditional sheets are used. 850 GSM PVC linings are manufactured with the aid of a high-frequency welding process. Linings are UV resistant. Material of the same thickness is used for the walls and the floor. Should the thickness differ, you get your lining free.

Burquip

international

Burquip International has been a leading manufacturer, importer and distributor of high speed trailer and agricultural implement trailer components in the Southern African market for over 25 years.

We offer a wide range of high speed and agricultural trailer components that will serve the unique requirements of each of these markets from one of the three branch outlets within South Africa. Exports to African countries include amongst others Namibia, Botswana, Zimbabwe, Mozambique, Zambia and Malawi. Burquip's axle manufactured standard length trailer axles are readily available from outlets and any custom order or large quantity order can be supplied within 10 days from receipt of order. Burquip's sales representatives are trained to assist you with your enquiries and will also prepare quotations on your request.
