IMES CONSULTANTS - 082 963 4427

A hippity-hop hello from all of us here at AGRIFOODSA Magazine and thanks for hunting down our March/April 2017 edition. The December holiday is but a fond memory, a crisp breeze has replaced the sweltering

heat and Easter has brought its benign bunnies and inescapable, egg-straordinary hunts. We've scrambled around a bit ourselves to find new and interesting advertisers and are proud to drop our cracking new edition in your lap.

I'm still a little shell shocked but very happy to lay our 128-page bumper issue out in time for Nampo. We'd like to egg-spress our gratitude to all of our advertisers for their overwhelming support and also give a big thanks to you, the reader, for your continued patronage.

With Nampo in May, we've packed our bags and we're looking forward to meeting our loyal AFSA Mag readers. If you see us there, come over, say hello and spare a yolk! Also, check out the AFSA Website (<http://www.agrifoodsa.info>) and Facebook page for our egg-citing new competitions running from 16-19 May exclusively.

Speaking of, if you haven't ventured over to the AFSA Facebook page (<https://www.facebook.com/agrifoodsa>) yet, give it a go. We have tons of select content like Boererate, Advertiser Showcases, recipes and funnies, as well as helpful and informative articles available for your perusal. Remember to check in on Saturday mornings at 08:00 for the theme photo competition where a Takealot.com voucher is up for grabs weekly.

I'd also like to wish a very warm welcome to the newest chick in our little clutch, Sharné Rautenbach. We're really pleased to have you join us on this journey. Then, to Erika Roodt who's flown the coop - all the best for the future.

Irrespective of religious beliefs, I think Easter is a fantastic time to reflect on the joys of life, be thankful for the gifts of every new rooster's crow and to be reminded to keep the sunny side up!

I'm getting the cluck out of here, until next time...

4CROP

PROTECT YOUR CROPS

Extended width crop cover

4Crop defines the 'Crop Protection Market', it is an ideal choice for farmers protecting a wide range of crops and soils from climate change and environmental impacts. 4Crop fabric is a non-woven spunbond material, **NEWLY** available in extended widths. *Saving you Time, Money and Labour.*

4CROP FABRIC IS:

- Physically strong
- Abrasive resistant
- Combined with an open structure to optimize water and air flow
- Supports plant growth
- Reduces insect and other variable conditions
- Good greenhouse affect (light transmission)

4CROP SUPPORTS THE FARMER WITH A RANGE OF APPLICATIONS

- Open fields: 17gsm or 30gsm, extended (welded) widths: 6, 9, 12 or 15 meters wide
- Micro-tunnels: Micro-climates with sufficient vertical space
- Fabric bags: Individual bags for stemmed crops

AANPASSING SE MOSES

Met dosering van Lacticon™ S pas skape nou in 'n japtrap aan op mielie-oesreste/weimielies.

Die innovasie van Lacticon™ S beteken:

Skape wat mielies/ mielievoeding ken kan nou direk op mielie-oesreste/weimielies gejaag word sonder die gebruikelike omslagtige aanpassingspraktyke.

Mortaliteite a.g.v. suurpens word dramaties verlaag.

Verbeterde groei en gesondheid.

Lacticon™ S – Vir ware gemoedsrus.

**BIG
BOX**

**BIG SPACE
SOLUTIONS FOR
BIG IDEAS**

THE BIG CHILL

Our refrigerated containers are available in 6m and 12m, with temperatures ranging from -20°C to 10°C. These cold store units are lined with stainless steel and features aluminium T-Bar flooring for an easy clean and even distribution of cold air.

9-TO-5 SPACE SOLUTIONS

At Big Box Containers, we give our clients what they need, when they need it. From basic site offices to permanent work space solutions with all the bells and whistles – your Big Box office is a phone call away.

FOR RENT

Big Box refrigerated units are available for rent on a short-term or long-term basis, offering our clients a solution that will fit their needs and their pockets. All our units are wind and water tight and in tip-top shape. For a more permanent cold storage solution, Big Box also offers new and refurbished containers for sale. Our trained sales consultants will advise you on the correct installation requirements, so you won't be left out in the cold.

BIG BENEFITS

SPACE SAVER

Big Box refrigerated containers instantly increases your on-site cold storage capacity, while freeing up valuable internal space.

MONEY SAVER

Why build or extend a cold storage facility when you can get the same quality neatly boxed, for less?

ON THE GO MOBILITY

Moving premises? Take your Big Box with you. It's that easy.

TERRAPLEX

30

Terraplex 30 is a mixture of co-polymers that was developed to specifically aid in wheel track stabilization for centre pivot irrigation systems. It is biodegradable, environmentally friendly and can safely be used when dealing with irrigated crops.

Terraplex 30 is cost effective, durable and easy to apply. **Terraplex 30** will significantly reduce mechanical wear and reduce equipment replacement costs normally associated with muddy or heavily eroded pivot system wheel tracks.

Why use Terraplex 30?

Before

Application

After

Terraplex 30 is supplied in a re-sealable container which is sufficient to treat either a 6-stage or 3-stage centre pivot system for a full season.

*sending predators
back to nature*

SENDING PREDATORS BACK TO NATURE

- E-Shepherd is a novel way to control predator attacks on livestock.
 - our philosophy is to change the behaviour of predators in such a way that it would rather resort to its original diet and leave livestock in peace
 - E-Shepherd is a new technology that monitors the movement of sheep.
 - If the movement of the animal falls outside of a range of pre-set parameters (e.g. the sheep starts to run) the unit goes into emergency mode. This activates an alarm that affects the central nervous system of the predator and deters the predator from attacking the sheep
 - E-Shepherd is thus a truly "green" product
 - The device is a non-lethal, non-harmful way to prevent losses of livestock
 - It is a robust, cost effective and flexible system that adapts to different conditions
-

MES CONSULTANTS - 082 563 4427

Any size ZincAl dam, grain dam, ZincAl tank or lining can be manufactured on request. 0.8 to 1.2 mm ZincAl sheets with a life expectancy of 2 to 4 times longer than that of traditional sheets are used. 850 GSM PVC linings are manufactured with the aid of a high-frequency welding process. Linings are UV resistant. Material of the same thickness is used for the walls and the floor. Should the thickness differ, you get your lining free.

THERMAL SECURITY

NO SAFETY. NO FREEDOM.

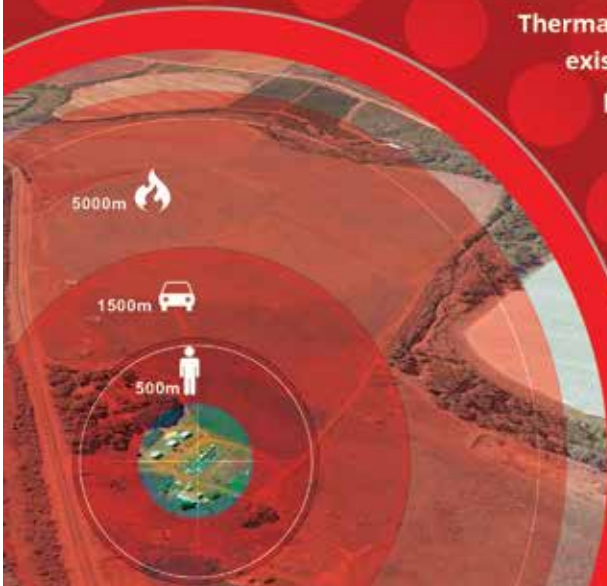

- Unmanned perimeter detection
- Unmanned & automated drone - Military grade
- Fence and underground detection system
- Anti-Drone system
- Triangulation system for mobile phone tracking and intruder notification
- Thermal & IR Camera systems

Thermal Radar provides cost-effective 360° intruder detection:

- Up to 500 metres - human detection;
- Up to 1500 metres - vehicle detection;
- Up to 5000 metres - fire detection.

Thermal Radar produces persistent coordination of existing PTZ security cameras and alarms and provides situational awareness for farmers and security personnel to coordinate responses to threats. Intrusion alarms have an "inside-out" approach and reduce the number of security cameras needed.

GRAS VIR AFRIKA

MG12 Paredao se voedingsgehalte en voerproduksie is so uitstekend dat dit aanbeveel word vir melk- en beesvleisproduksie. In verskeie evalueringstoetse (op plase en deur middel van chemiese analise) het MG12 Paredao bewys dat dit hoë produktiwiteit in die hand werk. Hoë droogte weerstand. Opbrengs 30 t – 35 t/ha/jaar.

NUUT!
20% – 25%
verhoging in
ton produksie

Panicum Maximum (witbuffel)

Geskiik vir besproeiing met 'n opbrengs van 18 tot 30 ton DM/ha/jaar.

Panicum Maximum-kruis

Geskiik vir wild en koue toestande. Opbrengs 15 tot 20 ton DM/ha/jaar.

Aries is 'n hibried van *P. maximum Aruana* en *P. maximum Centauro*. Aries is koue- en droogtebestand en toon goeie hergroei ná beweiding. Dit is 'n uiters smaaklike gras geskiik vir beeste, perde, skape en wild.

Brachiaria Brizantha

Brachiaria

Matsuda het Marandu veredel onder Brachiaria MG-4 om meer droogtebestandse eienskappe as Marandu te bied. MG-5 Victoria is ook 'n veredelde Marandu wat 'n beter opbrengs, droogtebestandheid en goeie hergroei ná beweiding bied. Victoria kan in vleiagtige grond met swak dreinerings eienskappe gevestig word. Geskiik vir droë lande met 'n opbrengs van 10 tot 14 ton DM/ha/jaar.

Pennisetum (banagras)

CARAJAS – 'n verbeterde banagras wat met saad gevestig kan word.

- Geselekteer vir hoër droë materiaalopbrengs, vinniger hergroei, hoër proteïene en beter verteerbaarheid.
- Hierdie olifantsgraskruising is uiters bestand teen koue en matig tot hoog droogtebestand.
- Baie smaaklik en uiters geskiik vir beweiding asook kuilvoer.
- Kuilvoeropbrengs van meer as 200 ton materiaal (40 tot 50 ton droog) per hektaar per jaar is moontlik onder ideale toestande.

Peulplante

Java is 'n meerjarige peulplant wat heeljaar baie saad produseer en voeg 150 kg stikstof per ha per jaar terug in die grond. Die peulplant kan in arm grond gevestig word en het 'n hoë droogte weerstand. Dit is smaaklik en het 'n proteïenwaarde van 18 tot 23% en lewer goeie hergroei ná beweiding.

FIXMAN

Update your power!

Tool Modular Storage System

FIXMAN Modular Storage System

Comprising over 40 references, the FIXMAN modular storage system allows each tool to be easily selected and missing tools to be immediately recognised. It is fully compatible with the roller cabinets and bench. The trays forming the modules are designed to withstand intensive daily use.

Roller Cabinets + Accessories = Workstation

A complete range of accessories for instantly transforming a roller cabinet into a workstation. Side-mounted accessories can be freely positioned thanks to the full-height perforation and the fast, simple clip-on connection system. Tube-mounted accessories can be quickly and easily slotted into the worktop.

POWERFUL PRECISION MADE EASY...

The Topcon portfolio of precision farming products features the most advanced technology for guidance, auto steering, variable rate control, auto section control, crop canopy sensing, water management and farm data management. All designed to be user friendly and easy to use.

Topcon's lineup of precision farming consoles will help you improve operational efficiency and reduce input costs:

X30 Console

The industry's easiest to use touchscreen display with icon-based, user-definable interface.

X25 Console

Full-featured precision for price-conscious farmers – A mid-range 8.4" color touchscreen console for smaller cab environments.

X14 Console

Topcon's precision farming controller for entry level visual guidance or auto steering, offers the same look and feel of the easy-to-use X30 touchscreen.

SERVICES

- 1 SURVEYING
- 2 PLANNING
- 3 DESIGN
- 4 SURFACE & SUBSURFACE DRAINAGE
- 5 PIVOTS, PIPLINES & DAMS
- 6 AFTER SALES SERVICES

WE PROVIDE EFFECTIVE WATER MANAGEMENT SOLUTIONS

Our services include a variety of specialised processes and systems, each designed to achieve the optimal outcome.

SPECIALISED PLANNING IS REQUIRED TO GAIN OPTIMAL USAGE OF FIELDS AND THE HIGHEST YIELDS.

WHY CHOOSE AGRI DRAINAGE?

Agri Drainage follows a holistic approach to drainage. The field is analysed as a whole and a complete solution offered, from land forming (to prevent ponding), contour and waterway building (to assist surface drainage) land levelling (for effective water utilization) all the way to subsurface drainage to prevent water logging.

Kuilvoer Kultivars

LS 8537

Medium lang groeiseisoen baster
Uitstekend vir kuilvoer
Goeie agronomiese eienskappe
Wyd aanpasbaar

LS 8518

Medium groeiklas
Hoë potensiaal baster
Baie goeie agronomiese balans
Wye aanpasbaarheid
Uitstekende opbrengs

LG 3607 Y

Vinnige baster
Uitstekende opbrengs in sy groeiklas
Baie goeie staanvermoë
Stabiele baster
Droog vinnig af

LS 8538 R

Vinnige afdroging
Goeie agronomiese balans
Wyd aanpasbaar
Baie goeie staanvermoë
Hoë opbrengs

Uitstekende

Sojaboon Kultivars vir Wisselbou

LS 6240 R

Uitstekende staanvermoë
Aangepas by wye en nou rye
Goeie peulhoogte vir 'n vinnige groeiklas
Uitstekende opbrengs potensiaal

LS 6146 R

Wye aanpasbaarheid en goeie opbrengsvermoë
Goed aangepas in veral die koel en gematigde dele
Goeie staanvermoë en peulhoogte

LS 6248 R

Medium—Vinnige kultivar met wye aanpasbaarheid
Goed aangepas in koel tot gematigde gebiede
Goeie staanvermoë en peulhoogte

Kwaliteit en Diens

'n Goeie keuse vir kommersiële sowel as kuilvoer kultivars

Die keuse van kultivars lê in basiese beginsels nl.

- Omgewing
- Plantdatum
- Plantpopulasie
- Opbrengs

Die keuse van 'n kuilvoer kultivar gaan oor die graan-plant verhouding met goeie graan opbrengs. Basters met hoë opbrengs soos LS 8537, LS 8518 of LG 3607 Y, is gewilde groeiklas basters. Toleransie tot plant- en kopsiektes, speel 'n groot rol in die sukses van opbrengs. Maak 'n ingeligde kultivar keuse met die ondersteuning en bystand van kundiges en kontak Link Seed (PTY) Ltd vandag.

How moist is your soil? | Sensetion single-pack

Use the Sensetion single-pack to measure soil moisture and use your smartphone or computer for the rest.

The Sensetion system is easy to install and consists of a monitor placed in the field and an app either downloaded to your smartphone or via the internet to your desktop.

MEC ONTSA NEMPS - 082 904 4427

Benefits of the system include

- Optimal irrigation advice for all your crops
- Current soil moisture status of the field
- Anytime, anywhere access on your smartphone
- Easy to install with installation set
- High quality design with smart sensors inside
- Powered by solar energy
- Includes lifetime data and software subscription

Functional characteristics

- Height 141 cm
- Measuring range 25 cm
- Measuring depth 30 cm
- Integrated screw point
- Integrated data logger
- Including solar panel
- Communication through GPRS quad-band modem and SIM card

VOORTREFLIKE DIENS

By BKB beseef ons die belangrikheid van vertroue. 'n Vertroue dat die reën sal terugkeer en die grond 'n opbrengs sal lewer aan diegene wat dit bewerk. Ons weet vertroue kan nie gekoop word nie, maar word algaande verdien deur ons optrede en toewyding aan jou, in goeie en slegte tye. Ons is trots op die verhouding wat ons oor geslagte met kliënte gebou het, almal gegrond op integriteit en gebind met 'n kyk in die oë en 'n stewige handdruk.

Golden Spring & Engineering services

SPRING TECHNOLOGY AT ITS BEST

Africa's Largest Variety Manufacturer of Multi Leaf Springs, Coils And Parabolic Springs We also carry a comprehensive range of components

Golden Spring & Eng Services merged with Van Zyl's Spring Works which was established in 1937. Now manufactures and distributes automotive multi-leaf springs, coil springs, parabolic – also known as mono leaf – as well as spring components.

The company now claims to be the largest spring manufacturer in Southern Africa, supplying a wide range of products to bus companies, trailer manufacturers, government institutions, and overseas markets such as the United Kingdom, Sweden, Norway and the United States,

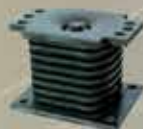

The company's operation centre is based in Johannesburg, with a fitment centre facility where customers can drive in and have their suspension examined, repaired or replaced if required. It also fits heavy duty coils and leaf springs for cars, light delivery vehicles, buses and trucks, supplies lowering kits for cars, and performs 4x4 soft ride conversions.

~AND MANY MORE

Golden Spring also has a parts and stores section where a complete range of u-bolts, brass bushes, centre bolts, shackle pins and polyurethane bushes are always in stock. Repairs are carried out to all multi-leaf springs and parabolics, having each individual blade reset back to its original state. Reinforcement can also be done to the springs – one extra blade would be sufficient to increase the load to about 20% in multi-leaf springs. The company is continuously improving its products to supply higher quality. Golden Spring believes that there is no job too big or too small, and complete customer satisfaction is its ultimate goal.

Specially designed springs are made in-house, giving the customer the right spring for the right job. Only the best high alloy spring steel is used on all multi-leaf spring. The engineering workshop manufactures brass bushes, u-bolts and centre bolts to the specific size.

QUALITY AGRICULTURE

When it comes to keeping your machinery and vehicles operating at an optimal level, think twice before you install inferior quality parts. They will need replacing far sooner than OEM quality BMG products, engineered to improve your productivity and cut costs in the long run. We have the widest range and largest stockholding of superior quality Agricultural products as well as the technical expertise to help you make the right, cost effective choices.

Burquip

international

Burquip International has been a leading manufacturer, importer and distributor of high speed trailer and agricultural implement trailer components in the Southern African market for over 25 years.

We offer a wide range of high speed and agricultural trailer components that will serve the unique requirements of each of these markets from one of the three branch outlets within South Africa. Exports to African countries include amongst others Namibia, Botswana, Zimbabwe, Mozambique, Zambia and Malawi. Burquip's axle manufactured standard length trailer axles are readily available from outlets and any custom order or large quantity order can be supplied within 10 days from receipt of order. Burquip's sales representatives are trained to assist you with your enquiries and will also prepare quotations on your request.

AGRIFOODSA
INFO

Office: +27 (0) 12 997 3407 | Fax: +27 (0) 86 542 0704 | info@agrifoodsa.info

Get connected to the farmer... just a click away!

If you're not advertising on the AGRIFOODSA.INFO website yet, you need to get right on it!

With improved functionality and enhanced design, it promises to be a fundamental tool for farmers and enthusiasts of the agricultural and secondary industries in South Africa.

The new website affords the user the opportunity to read and download the AGRIFOODSA Suppliers Guide Magazine, offering additional exposure to our print advertisers.

There are advertising options to meet everyone's needs. Possibilities range from premium directory listings to banner adverts on the HOME page. All major players in Agri and food are able to get incredible coverage and marketing benefits at very reasonable prices.

Advertisers who appear in our Suppliers Guide have the opportunity to book premium listings on our website at a fraction of the standard price.

As part of the AGRIFOODSA.INFO website, advertisers will enjoy the following brand promotion:

- Google Search Engine Optimization of the AGRIFOODSA.INFO website;
- Advertising of the AGRIFOODSA.INFO website in various other Agricultural publications;
- Coverage on our Social Media pages; and
- Exposure through our monthly newsletter which will be e-mailed to 18,000 links across Southern Africa.

We are also presenting website advertisers with the opportunity to have broadcasts, special offers or short articles on new products and/or services posted to our brand-new NEWS Page.

We are driven by performance,
passionate about our clients
and focussed on achieving results.

Look out for the fresh, innovative AGRIFOODSA.INFO website **LIVE!**

For more information or to advertise, contact us today.
