EDITOR'S NOTE

Agriculture Suppliers Guide – this guide is printed six times a year, free of charge to the consumer, in outlets across South Africa.

This user-friendly glossy guide is small enough to be kept at hand by the consumer permanently, but also large enough that suppliers and service providers can get proper exposure.

This guide serves the entire agricultural spectrum, as well as related industries. Providers are given the opportunity to get double exposure, because they also have the option to offer their goods and services on the Internet, just as consumers are provided with a double opportunity to satisfy their needs – through the Agricultural Suppliers Guide, as well as the internet, at www.agrifoodsa.info/suppliers.

It is our goal to constantly keep abreast of market trends and ensure that suppliers are getting the exposure they deserve. Of course, the farmer and consumer are enabled to gain free access to those who make it possible for them to successfully manage their industries.

Thank you for your participation. We have no doubt that you, the supplier and the farmer/merchant, as the two major entities in South Africa, will go from strength to strength with this guide.

You are invited to contact the publishers at any time in order to ensure that a better product/service is delivered to you.

The Leader in Precision Irrigation

A blue banner with the "VALLEY" logo is attached to a large metal irrigation structure. The structure consists of a central pivot point with multiple arms extending outwards, supported by a complex steel truss system. The background is a clear blue sky with some light clouds.

VALLEY

Valley[®] Irrigation in Sub-Saharan Africa PRECISION IRRIGATION MADE EASY

Manufacturer and supplier of centre pivots, linears, in high and ultra-high profiles as well as towable. These combined with the Valley range of GPS ready control panels and remote control options, make Valley the number 1 choice worldwide!

SERVICES

- 1 SURVEYING
- 2 PLANNING
- 3 DESIGN
- 4 SURFACE & SUBSURFACE DRAINAGE
- 5 PIVOTS, PIPLINES & DAMS
- 6 AFTER SALES SERVICES

WE PROVIDE EFFECTIVE WATER MANAGEMENT SOLUTIONS

Our services include a variety of specialised processes and systems, each designed to achieve the optimal outcome.

SPECIALISED PLANNING IS REQUIRED TO GAIN OPTIMAL USAGE OF FIELDS AND THE HIGHEST YIELDS.

WHY CHOOSE AGRI DRAINAGE?

Agri Drainage follows a holistic approach to drainage. The field is analysed as a whole and a complete solution offered, from land forming (to prevent ponding), contour and waterway building (to assist surface drainage) land levelling (for effective water utilization) all the way to subsurface drainage to prevent water logging.

No **FIRE** can
match these
FIGHTERS!

Get peace of
mind backed
by a factory
guarantee.

Fires are a reality. Be prepared, get a **HIGH PRESSURE FIRE FIGHTER** you can rely on, that uses minimum water!

Our machines are quick to set up and simple to use, saving you valuable time in case of a fire outbreak. Each Fighter can also be transported by a small 3-Quarter-Ton or 1-Ton bakkie, ensuring an effective, no-fuss solution for most municipalities or farmers.

THE Subaru & THE RATO

- 620L Step Tank design, gives a low centre of gravity
- Inside black coating to prevent Algae growth, baffles ensure further stability to the transporter.
- 20m hose on galvanised hose reels
- Single and double hose reels available
- 5 - 7 horse power petrol engines, diesel options available.
- Venturi kits optional to re-load water to the tanks. Suitable for use with cattle dipping and as a insecticide spray.

Don't let the recent drought wreck more havoc on your livelihood, call us now!

Die Nuwe Perten AM 5800 Draagbare Graan Vog Meter

Daar bestaan 'n groot mark vir laer geprysde graan vogmeters. Die Perten AM5800 sal alle huidige instrumente in die mark oortref.

Daar word jaarliks duisende graan vogmeters tussen R9,000 en R35,000, verkoop maar hulle akkuraatheid voldoen nie aan die eindgebruiker se verwagtinge nie. Die AM 5800 sal presiese akkuraatheid bied (binne 0.1%) teen 'n prys wat dit aantreklik sal maak vir boere en ander wat nou akkurate vog bepaling sal kan bekostig.

Die AM 5800 gebruik dieselfde hoe frekwensie RF tegnologie en dieselfde kalibrasies as die Perten AM 5200-A (soos wat meestal by die groot graan handelaars en silos in gebruik is). Werksverrigting en resultate is soortgelyk.

Die instrument word deur twee AA batterye aangedryf met 'n lewensduur van een jaar onder gewone gebruiksomstandighede. Met 'n sagte handvatsel en 'n gewig van 5kg, is die AM5800 werklik draagbaar.

Die aflewering van die instrument sluit ook 'n drasak en 'n Android toepassing in. Die toepassing word gebruik om, deur middel van Bluetooth, die instrument op te stel en om enige aanpassings aan te bring.

RCL FOODS Animal Feed

gee jou meer as net 'n verskeidenheid van dierevoeding.

Meer veevoer
na meer boere,
meer dikwels

By **RCL FOODS Animal Feed** is elke boer belangrik en dra ons jou belange op die hart ... juis omdat jy en jou diere net die beste verdien. As dierevoerspesialis hou ons jou op koers met die beste en grootste verskeidenheid in dierevoeding. Derhalwe kan jy staatmaak op die wetenskaplike en tegniese kundigheid van ons verkoopsman; op beter produkinnovasie, beter voedingsprogramme en beter dienslewering. Met ons twee voorste handelsname, **Molatek** en **EPOL**, onder een dak, trek jy boonop voordeel uit ons produkverskeidenheid vir 'n wye verskeidenheid dierespesies. Ons produkte dek vleisbeeste, melkbeeste, skape, bokke, wild, pluimvee, varke, perde, volstruise en nog meer.

Jy hoef dus net RCL FOODS Animal Feed te skakel vir al jou voerbenodigdhede.

At BKB we believe in the growth of your business as much as we believe in the growth of our own. Therefore, we constantly search to find ways to broaden horizons and have done so with the introduction of grain marketing & storage and the expansion of our auctioneering infrastructure. We continue to effectively handle wool, mohair

and the trading of livestock and property ensuring unlimited benefits to you and the South African agri-industry. Speak to BKB about our range of high quality products and services proudly offered in conjunction with subsidiary companies BKB Eiendomme, BKB Louwid, BKB VAN WYK, BKB Wildlife, BKB GrainCo and BKB AgriFin.

Loadtech leads in supplying quality weighing components

Loadtech Load Cells is one of the best known load cell manufacturers in South Africa.

When it comes to specialized weighing solutions the company has over 50 years collective experience. Founded in 1987, Loadtech Load Cells has firmly established its reputation as a leader in quality load cell manufacturing.

Custom Designs

Whether your requirement is for custom weighing systems, applications such as force measurement, center of gravity determination or crane weighing systems, Loadtech will provide an innovative and economical solution, staying by your side long after the sale.

Accreditation

Loadtech Load Cells has an accredited explosion protection rating on various locally manufactured load cells.

Partners

The combination of own manufacture and the extensive range of products from Vishay transducers allows Loadtech Load Cells an unequalled degree of flexibility in offering weighing solutions.

Technical application assistance with regard to your specific needs, and attention to detail are unmatched in the industry.

We have the solution

Kuilvoer Kultivars

LS 8537

Medium lang groeiseisoen baster
Uitstekend vir kuilvoer
Goeie agronomiese eienskappe
Wyd aanpasbaar

Kwaliteit en Diens

LS 8518

Medium groeiklas
Hoë potensiaal baster
Baie goeie agronomiese balans
Wye aanpasbaarheid
Uitstekende opbrengs

'n Goeie keuse vir kommersiële sowel as kuilvoer kultivars

LG 3607 Y

Vinnige baster
Uitstekende opbrengs in sy groeiklas
Baie goeie staanvermoë
Stabiele baster
Droog vinnig af

Die keuse van kultivars lê in basiese beginsels nl.

- ♦ Omgewing
- ♦ Plantdatum
- ♦ Plantpopulasie
- ♦ Opbrengs

LS 8538 R

Vinnige afdroging
Goeie agronomiese balans
Wyd aanpasbaar
Baie goeie staanvermoë
Hoë opbrengs

Die keuse van 'n kuilvoer kultivar gaan oor die graan-plant verhouding met goeie graan opbrengs. Basters met hoë opbrengs soos LS 8537, LS 8518 of LG 3607 Y, is gewilde groeiklas basters. Toleransie tot plant- en kopsiektes, speel 'n groot rol in die sukses van opbrengs. Maak 'n ingeligde kultivar keuse met die ondersteuning en bystand van kundiges en kontak Link Seed (PTY) Ltd vandag.

Uitstekende

Sojaboon Kultivars vir Wisselbou

LS 6240 R

Uitstekende staanvermoë
Aangepas by wye en nou rye
Goeie peulhoogte vir 'n vinnige groeiklas
Uitstekende opbrengs potensiaal

LS 6146 R

Wye aanpasbaarheid en goeie opbrengsvermoë
Goed aangepas in veral die koel en gematigde dele
Goeie staanvermoë en peulhoogte

LS 6248 R

Medium—Vinnige kultivar met wye aanpasbaarheid
Goed aangepas in koel tot gematigde gebiede
Goeie staanvermoë en peulhoogte

How moist is your soil? | Sensetion single-pack

Use the Sensetion single-pack to measure soil moisture and use your smartphone or computer for the rest.

The Sensetion system is easy to install and consists of a monitor placed in the field and an app either downloaded to your smartphone or via the internet to your desktop.

Benefits of the system include

- Optimal irrigation advice for all your crops
- Current soil moisture status of the field
- Anytime, anywhere access on your smartphone
- Easy to install with installation set
- Includes 3 years' data and software subscription
- High quality design with smart sensors inside
- Powered by solar energy

Functional characteristics

- Height 141 cm
- Measuring range 25 cm
- Measuring depth 30 cm
- Integrated screw logger
- Integrated data logger
- Including solar panel
- Communication through GPRS quad-band modem and SIM card

▶ Deep and active

KROHNE

▶ *achieve more*

▶ Direct subsurface installation of water meters? Now it's possible with the WATERFLUX from KROHNE.

WATERFLUX – the new magnetic-inductive water meter – enormously simplifies the integration of measurement technology in drinking water networks. Thanks to its permanent maintenance-free operation, an above-average service life of 25 years and the special subsurface installation coating, the WATERFLUX can be installed directly in the ground for applications not subject to custody transfer – and all this without a measuring chamber.

The precisely acquired measurement and totaliser values can be conveniently read aboveground on the battery-operated converter. Optionally, the data can be transmitted cyclically via any number of GSM mobile communications networks to a control system – even from remote areas.

With minimum effort, you can set up an autonomous and fully remotely monitored metering point installed underground – one that is deep and active!

KROHNE – Water is our world.

Update your power!

Tool Modular Storage System

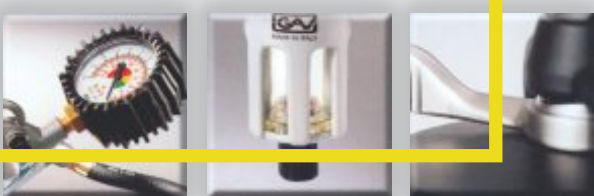

FIXMAN Modular Storage System

Comprising over 40 references, the FIXMAN modular storage system allows each tool to be easily selected and missing tools to be immediately recognised. It is fully compatible with the roller cabinets and bench. The trays forming the modules are designed to withstand intensive daily use.

Roller Cabinets + Accessories
= Workstation

A complete range of accessories for instantly transforming a roller cabinet into a workstation. Side-mounted accessories can be freely positioned thanks to the full-height perforation and the fast, simple clip-on connection system. Tube-mounted accessories can be quickly and easily slotted into the worktop.

MAAK KRAGVOER VAN JOU KUILVOER

Shifra1276/A

Bewaar die energie in jou kuilvoer natuurlik.

BIOMIN BioStabil is 'n reeks kuilvoer-inokulante wat fermentasie in 'n breë kuilvoerspektrum (gras, lusern, graan-heelplante, klawer, mielie-heelplante, ens.) verbeter en versnel deur pH-waardes gedurende die inkuilproses vinniger te verlaag.

Sodoende word kuilvoerstabiliteit tydens voer-onttrekking uit die kuilvoerbunker verbeter, selfs nadat die bunker oopgemaak is. Die resultaat is 'n hoër droëmateriaal-, energie-, en voedingstofbehoud in waarborg vir laer insetkoste plus hoër produksie en wins.

Kry meer besonderhede by www.biomin.net/kragvoer of skakel ons by +27 (0)18 468 1455.
