MES CONSULTANTS - 082 663 4427

Winter is in the air and baby, it's cold outside. I just love this time of year when you see landscapes of beautiful, bare trees, smell the crisp, "wintery" air and feel chilly outside but the heat is on when you step inside. It's such a cosy time of year, especially when you have a cup of hot chocolate and the newest,

May/June 2017 edition of the AGRIFOODSA Magazine to curl up with.

Bracing the cold, we're bringing you the very best products and service providers in Southern Africa to fulfil all needs which may arise in the challenging, yet rewarding agricultural and food related professions. With more than 69 advertisers in this publication, we're confident that you'll find what you're looking for.

If you don't, our magazine is just the tip of the iceberg. Head on over to the AFSA Website (<http://www.agrifoodsa.info>) to quickly and easily search through thousands of listings ranging from crop protection to solar electricity, calf rearing to silo's and so much more. Don't get left out in the cold. Visit AGRIFOODSA.INFO ... just a click away!

If you prefer the sunshine and are looking for something to chase the winter blues away, head over to our Competitions page on the AFSA Website (<http://www.agrifoodsa.info/competitions>) to win amazing prizes bi-monthly. Details appear on pages 52-53. Whilst you're navigating the icy internet highways, venture over to our AFSA Facebook page (<https://www.facebook.com/agrifoodsa>) for more competitions, funnies, Advertiser Showcases, toasty recipes and Boerate, as well as helpful and informative articles uploaded on a daily basis to beat Jack Frost nipping at your nose. Avoid being left out in the cold and remember to check in on Saturday mornings at 08:00 for the themed photo competitions where a Takealot.com voucher is up for grabs every single week. The only way you'll have a snowball's chance in hell is if you don't enter!

Regrettably, this month we bid farewell to both Cherydene Claassen and Sharné Rautenbach. It was so much fun working with you and I wish you mounds of success in your future endeavours.

This winter, may you cozy up to the persons you care for most, achieve great success in the dead of winter and find yourself on the road to somewhere joyful, even if it is just to Spring. And to our fellow South Africans in Knysna and surrounds, our thoughts are with you.

THE PROFIT CENTER

CONDITIONING:

Take advantage of early harvest premiums, reduce yield loss and save money by drying your own grain.

MATERIAL HANDLING:

Speed through unload and get back into the field with a gentle and efficient GSI bucket elevator.

STORAGE:

Increase marketing flexibility and capture your best price when the time is right.

Farming is never easy. It's even tougher when the market's more bust than boom. Skip the line at the elevator and plan for profit with a complete grain system from GSI.

UPHOLD™ 360 SC PROVES THAT TWO IS BETTER THAN ONE

 SPINETORAM + METHOXYFENOZIDE

INNOVATIVE NEW INSECTICIDE TO SAVE HARVESTS BY DELIVERING A KNOCKOUT TO PESTS

Through rigorous testing, Uphold™ 360 SC has shown robust control of a wide range of destructive insects across various crops, working faster and longer than many other market equivalents.

Key advantages of Uphold™ 360 SC:

- A quick action and ready-to-use co-formulation that requires no additional mixing.
- With a wide window of application, users can expect to see results within 3 - 24 hours as well as control of pests ranging from 10 - 21 days, depending on the species.
- Reaching target pests takes the form of both contact and ingestion, thus allowing for a broader target pest range. Uphold™ 360 SC impacts all pest insect development stages.
- Dual active ingredient formulation ensures control of pests that have been known to be resistant to existing insecticide modes of action.
- Rain is not a barrier to efficacy, as the product offers a two-hour rain-fastness.
- Minimal impact on beneficial insects such as bees and parasitoids.

Uphold™ 360 SC

INSECTICIDE

AgCelence[®]
beskerm jou nalatenskap.

Wat jy in jou lande belê vandag - jou harde werk, passie en **AgCelence**[®] - bepaal die toekoms vir toekomstige geslagte.

AgCelence[®] ondersteun BASF se innovasie wat jou in staat sal stel om die maksimum opbrengs volhoubaar te produseer, jaar na jaar. Ons **AgCelence**[®] oplossings help om jou plaas optimaal te bestuur deur middel van verhoogde plantgroeidoeltreffendheid, uitstekende siektebeheer en beter strestoleransie. Met **AgCelence**[®] is jy verseker van 'n beter produksiedoeltreffendheid, bemerkbare gehalte en die beste opbrengs op belegging.

AgCelence[®] - help jou om die belofte van 'n nalatenskap wat jy vandag bou, te vervul.

 **BASF**
We create chemistry

Abacus[®] Advance -boere trek buitengewone voordeel uit hul oetste.

Die verbeterde formulاسie van Abacus[®] Advance verseker vinnige opname wat verder lei tot verhoogde betroubaarheid en die beste opbrengs op jou belegging.

Abacus[®] Advance op mielies en soja is nie net 'n uitstekende siektebeheeroplossing nie, jy kan ook fisiologiese voordele vir optimale opbrengs verwag. Ons noem dit die AgCelence[®] effek:

- Verhoog die plantgroeidoeltreffendheid met verbeterde fotosintese, beter gebruik van stikstof en verhoogde bio-massa ontwikkeling
- Verhoog die plant se weerstand teen stremming in situasies soos droogte deur etileenproduksie te inhibeer

Het jy jouself die AgCelence[®]-voordeel gegee?

Sojaboon Kultivars vir Wisselbou

LS 6240 R

Uitstekende staanvermoë
Aangepas by wye en nou rye
Goeie peulhoogte vir 'n vinnige
groeiklas
Uitstekende opbrengs potensiaal

LS 6146 R

Wye aanpasbaarheid en goeie
opbrengsvermoë
Goed aangepas in veral die koel
en gematigde dele
Goeie staanvermoë en peulhoogte

LS 6248 R

Medium—Vinnige kultivar met wye
aanpasbaarheid
Goed aangepas in koel tot gema-
tigde gebiede
Goeie staanvermoë en peulhoogte

Kwaliteit en Diens

'n Goeie keuse vir kommersiële sowel as kuilvoer kultivars

Die keuse van kultivars lê in basiese beginsels nl.

- ♦ Omgewing
- ♦ Plantdatum
- ♦ Plantpopulasie
- ♦ Opbrengs

Die keuse van 'n kuilvoer kultivar gaan oor die graan-plant verhouding met goeie graan opbrengs. Basters met hoë opbrengs soos LS 8537, LS 8518 of LG 3607 Y, is gewilde groeiklas basters. Toleransie tot plant- en kopsiektes, speel 'n groot rol in die sukses van opbrengs. Maak 'n ingeligde kultivar keuse met die ondersteuning en bystand van kundiges en kontak Link Seed (PTY) Ltd vandag.

6 x 2.3 m Zinc dam (65 kl)	- R 19 400	14 x 2.3 m Zinc dam (354 kl)	- R 72 900

PRICES INCLUDE:

ZincAl | Lining | 50 mm Outlet | 40 mm overflow | Installation and VAT. Transport not included

ZINCAL DAMS

Reservoirs
up to 522 kl

EARTH DAMS

HDPE liners
available

Any size ZincAl dam, grain dam, ZincAl tank or lining can be manufactured on request. 0.8 to 1.2 mm ZincAl sheets with a life expectancy of 2 to 4 times longer than that of traditional sheets are used. 850 GSM PVC linings are manufactured with the aid of a high-frequency welding process. Linings are UV resistant. Material of the same thickness is used for the walls and the floor. Should the thickness differ, you get your lining free.

THERMAL SECURITY

NO SAFETY. NO FREEDOM.

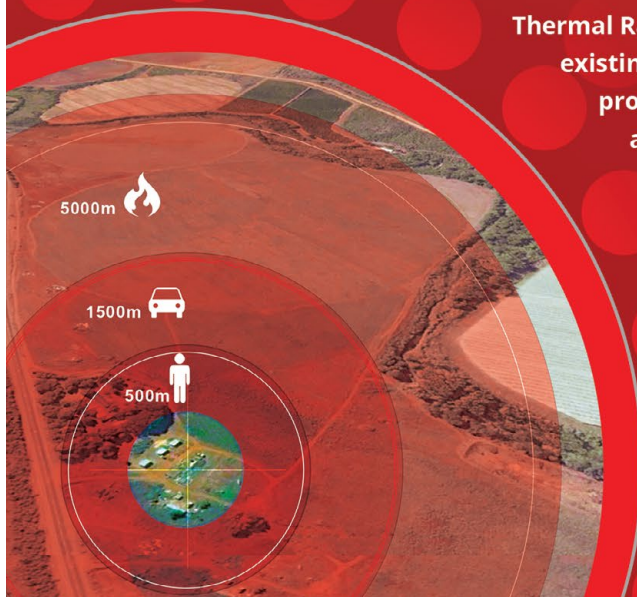

- Unmanned perimeter detection
- Unmanned & automated drone – Military grade
- Fence and underground detection system
- Anti-Drone system
- Triangulation system for mobile phone tracking and intruder notification
- Thermal & IR Camera systems

Thermal Radar provides cost-effective 360° intruder detection:

- Up to 500 metres – human detection;
- Up to 1500 metres – vehicle detection;
- Up to 5000 metres – fire detection.

Thermal Radar produces persistent coordination of existing PTZ security cameras and alarms and provides situational awareness for farmers and security personnel to coordinate responses to threats. Intrusion alarms have an “inside-out” approach and reduce the number of security cameras needed.

AANPASSING SE MOSES

Met dosering van Lacticon™ S pas skape nou in 'n japtrap aan op melie-oesreste/weimielies.

Die innovasie van Lacticon™ S beteken:

Skape wat mielies/mielievoeding ken kan nou direk op melie-oesreste/weimielies gejaag word sonder die gebruikelike omslagtige aanpassingspraktyke.

Mortaliteite a.g.v. suurpens word dramaties verlaag.

Verbeterde groei en gesondheid.

Lacticon™ S – Vir ware goedsrus.

How moist is your soil? | Sensetion single-pack

Use the Sensetion single-pack to measure soil moisture and use your smartphone or computer for the rest.

The Sensetion system is easy to install and consists of a monitor placed in the field and an app either downloaded to your smartphone or via the internet to your desktop.

Benefits of the system include

- Optimal irrigation advice for all your crops
- Current soil moisture status of the field
- Anytime, anywhere access on your smartphone
- Easy to install with installation set
- High quality design with smart sensors inside
- Powered by solar energy
- Includes lifetime data and software subscription

Functional characteristics

- Height 141 cm
- Measuring range 25 cm
- Measuring depth 30 cm
- Integrated screw point
- Integrated data logger
- Including solar panel
- Communication through GPRS quad-band modem and SIM card

POWERFUL PRECISION MADE EASY...

The Topcon portfolio of precision farming products features the most advanced technology for guidance, auto steering, variable rate control, auto section control, crop canopy sensing, water management and farm data management. All designed to be user friendly and easy to use.

Topcon's lineup of precision farming consoles will help you improve operational efficiency and reduce input costs:

X30 Console

The industry's easiest to use touchscreen display with icon-based, user-definable interface.

X25 Console

Full-featured precision for price-conscious farmers – A mid-range 8.4" color touchscreen console for smaller cab environments.

X14 Console

Topcon's precision farming controller for entry level visual guidance or auto steering, offers the same look and feel of the easy-to-use X30 touchscreen.

4CROP

PROTECT YOUR CROPS

Extended width crop cover

4Crop defines the 'Crop Protection Market', it is an ideal choice for farmers protecting a wide range of crops and soils from climate change and environmental impacts. 4Crop fabric is a non-woven spunbond material, NEWLY available in extended widths. *Saving you Time, Money and Labour.*

4CROP FABRIC IS:

- Physically strong
- Abrasive resistant
- Combined with an open structure to optimize water and air flow
- Supports plant growth
- Reduces insect and other variable conditions
- Good greenhouse affect (light transmission)

4CROP SUPPORTS THE FARMER WITH A RANGE OF APPLICATIONS

- Open fields: 17gsm or 30gsm, extended (welded) widths; 6, 9, 12 or 15 meters wide
- Micro-tunnels: Micro-climates with sufficient vertical space
- Fabric bags: Individual bags for stemmed crops

BIG SPACE SOLUTIONS FOR BIG IDEAS

THE BIG CHILL

Our refrigerated containers are available in 6m and 12m, with temperatures ranging from - 20°C to 10°C. These cold store units are lined with stainless steel and features aluminium T-Bar flooring for an easy clean and even distribution of cold air.

9-TO-5 SPACE SOLUTIONS

At Big Box Containers, we give our clients what they need, when they need it. From basic site offices to permanent work space solutions with all the bells and whistles – your Big Box office is a phone call away.

FOR RENT

Big Box refrigerated units are available for rent on a short-term or long-term basis, offering our clients a solution that will fit their needs and their pockets. All our units are wind and water tight and in tip-top shape. For a more permanent cold storage solution, Big Box also offers new and refurbished containers for sale. Our trained sales consultants will advise you on the correct installation requirements, so you won't be left out in the cold.

BIG BENEFITS

SPACE SAVER

Big Box refrigerated containers instantly increases your on-site cold storage capacity, while freeing up valuable internal space.

MONEY SAVER

Why build or extend a cold storage facility when you can get the same quality neatly boxed, for less?

ON THE GO MOBILITY

Moving premises? Take your Big Box with you. It's that easy.

Burquip

international

Burquip International has been a leading manufacturer, importer and distributor of high speed trailer and agricultural implement trailer components in the Southern African market for over 25 years.

We offer a wide range of high speed and agricultural trailer components that will serve the unique requirements of each of these markets from one of the three branch outlets within South Africa. Exports to African countries include amongst others Namibia, Botswana, Zimbabwe, Mozambique, Zambia and Malawi. Burquip's axle manufactured standard length trailer axles are readily available from outlets and any custom order or large quantity order can be supplied within 10 days from receipt of order. Burquip's sales representatives are trained to assist you with your enquiries and will also prepare quotations on your request.

Get connected to the farmer... just a click away!

If you're not advertising on the AGRIFOODSA.INFO website yet, you need to get right on it!

With improved functionality and enhanced design, it promises to be a fundamental tool for farmers and enthusiasts of the agricultural and secondary industries in South Africa.

The new website affords the user the opportunity to read and download the AGRIFOODSA Suppliers Guide Magazine, offering additional exposure to our print advertisers.

There are advertising options to meet everyone's needs. Possibilities range from premium directory listings to banner adverts on the HOME page. All major players in Agri and food are able to get incredible coverage and marketing benefits at very reasonable prices.

Advertisers who appear in our Suppliers Guide have the opportunity to book premium listings on our website at a fraction of the standard price.

As part of the AGRIFOODSA.INFO website, advertisers will enjoy the following brand promotion:

- Google Search Engine Optimization of the AGRIFOODSA.INFO website;
- Advertising of the AGRIFOODSA.INFO website in various other Agricultural publications;
- Coverage on our Social Media pages; and
- Exposure through our monthly newsletter which will be e-mailed to 18,000 links across Southern Africa.

We are also presenting website advertisers with the opportunity to have broadcasts, special offers or short articles on new products and/or services posted to our brand-new NEWS Page.

We are driven by performance,
passionate about our clients
and focussed on achieving results.

Look out for the fresh, innovative AGRIFOODSA.INFO website LIVE!

For more information or to advertise, contact us today.
