*"Oh, give us pleasure in the flowers to-day;  
And give us not to think so far away  
As the uncertain harvest; keep us here  
All simply in the springing of the year."*

*(A Prayer in Spring)  
excerpt from the poem by Robert Frost*

A warm and bright welcome to our Sept/Oct 2017 edition of the AGRIFOODSA Magazine, dear reader. Our shiny new spring edition aims to "keep us here, all simply in the springing of the year", as Robert Frost so eloquently put it. I've started this editorial letter with the poem since spring is the season to be poetic, romantic, fresh and vibrant.

In an effort to be fresh and vibrant ourselves, we're proud to present you with the very best in local products and service providers in the Southern African agricultural and food related industries. With 95 advertisers in this publication and thousands of advertisers on the AGRIFOODSA.INFO website (<http://www.agrifoodsa.info>), we're sure that you'll be in touch with the right people for all of your requirements in no time at all.

In an effort to bring the AGRIFOODSA.INFO Magazine to every city and town in South Africa, we've added 11 new co-ops in Greytown, Ixopo, Marble Hall, Pietermaritzburg, Pietersburg and Pongola to our ever expanding distribution list. See pages 96-97 for a full list of AGRIFOODSA Magazine stockists.

Do remember to head over to our Competitions page on the AGRIFOODSA.INFO Website (<http://www.agrifoodsa.info/competitions>) to win some "lekker" prizes every other month see pages 68-69 for more details). Our AFSA Facebook page (<https://www.facebook.com/agrifoodsa>) also offers weekly competitions plus funnies, advertiser showcases, recipes, Boerate, interesting articles and so much more.

I hope that the melody of birds, aroma of flowers and colour of the fields of magical Mzansi inspire you to work harder towards greater successes, but also to enjoy life.

Rejoice and enjoy the fruits of spring.

*Chantell Schmahl*

# THE PROFIT CENTER

**CONDITIONING:**  
Take advantage of early harvest premiums, reduce yield loss and save money by drying your own grain.

**MATERIAL HANDLING:**  
Speed through unload and get back into the field with a gentle and efficient GSI bucket elevator.

**STORAGE:**  
Increase marketing flexibility and capture your best price when the time is right.

Farming is never easy. It's even tougher when the market's more bust than boom. Skip the line at the elevator and plan for profit with a complete grain system from GSI.

PASTURES FOR AFRICA

## WORLD WIDE LEADERS IN

### ELEPHANT GRASS CARAJAS

- Carajas is an improved Banagras that can be established with seeds
- Selected for high dry matter production
- Quicker regrowth with higher protein
- This elephant grass has a good cold and drought tolerance
- Tasteful and digests well and used for gazing and silage making

### PANICUM MAXIMUM - ARIES

- It is a perennial forage grass with tussocks
- Great tillering capacity
- Narrow hairless leaves and light green color
- The main characteristic of this cultivar remains on its regrowth capacity after grazing
- It is very well accepted by beef cattle, horses, sheep and goats.
- High protein with a 70% digestibility and highly palatable

PANICUM  
MAXIMUM-  
MOMBASA & TANZANIA

### PANICUM MAXIMUM – MOMBASA AND TANZANIA

- High dry matter producer with excellent digestibility
- Recommended for intense grazing pastures
- Direct grazing, hay making and silage making
- Used by beef and dairy cattle producers

### PANICUM MAXIMUM – PAREDAO

- New improved panicum variety that produces higher quality plants that produce up to 30% more than most panicum varieties
- plant have an excellent palatability with a high drought tolerance
- direct grazing and silage making
- Is recommended for milk and beef production

# TROPICAL PASTURE SEED

## BRACHIARIA BRIZANTHA- MG 4

### BRACHIARIA BRIZANTHA - MG 4

- Improved Marandu that can handle poor soil with a high drought tolerance
- Utilize direct grazing and hay making
- Good regrowth after grazing
- Cold of tolerance higher than Marandu

Brachiaria Brizantha MG-5

MATSUDA GENETICS 5

**Victoria**

### BRACHIARIA BRIZANTHA - MG 5 VITORIA

- Yields higher than marandu cultivar
- Good drought resistance
- Tolerates poorly drained soils
- Good regrowth after grazing
- Very good option for the beef cattle production

## 4 GAME MIX

### 4 GAME MIX

- Improved handling through increased flow capacity of the seed
- Better protection against insects
- Better protection seedling rot
- Extremely suitable for grass-eating wildlife

HYBRID LEGUME  
**JAVA**

### HYBRID LEGUME JAVA

- Java is a perennial twinning and creeping legume with stems
- Low demanding in soil fertility
- Fixate up to 150 kg/ha Nitrogen per year
- Medium palatability which assures high persistence with high crude protein value
- Presents high persistence under grazing
- Very good seed producer setting seeds all year round

## UPHOLD™ 360 SC PROVES THAT TWO IS BETTER THAN ONE

SPINETORAM + METHOXYFENOZIDE

### INNOVATIVE NEW INSECTICIDE TO SAVE HARVESTS BY DELIVERING A KNOCKOUT TO PESTS

Through rigorous testing, Uphold™ 360 SC has shown robust control of a wide range of destructive insects across various crops, working faster and longer than many other market equivalents.

#### Key advantages of Uphold™ 360 SC:

- A quick action and ready-to-use co-formulation that requires no additional mixing.
- With a wide window of application, users can expect to see results within 3 - 24 hours as well as control of pests ranging from 10 - 21 days, depending on the species.
- Reaching target pests takes the form of both contact and ingestion, thus allowing for a broader target pest range. Uphold™ 360 SC impacts all pest insect development stages.
- Dual active ingredient formulation ensures control of pests that have been known to be resistant to existing insecticide modes of action.
- Rain is not a barrier to efficacy, as the product offers a two-hour rain-fastness.
- Minimal impact on beneficial insects such as bees and parasitoids.

# Uphold™ 360 SC

## INSECTICIDE

# NETAFIM D-NET™ 3D IMPACT SPRINKLER

OUTSTANDING DISTRIBUTION UNIFORMITY

  
**25 YEARS**  
GROWING MORE WITH LESS

### The most for the least

Growers of open-field and nursery vegetable crops know that the design of the impact sprinkler head is a critical factor in effective water coverage.

At Netafim we've completely reworked this design to guarantee that uniformity of water distribution is the highest in the market.

By incorporating D-Net™ 3D impact sprinklers into the irrigation system, growers achieve the most accurate water coverage for the lowest precipitation rates. It's the uniformity they need for greater crop yields.

BIO-INSECTARIES  
SOUTH AFRICA

OMGEWINGSVRIENDELIKE PLAAGBEHEER

**Onoortreflike gehalte en professionele diens – in Suid-Afrika geteel vir Suid-Afrikaanse vlieë**

Hoe werk hierdie program?

Vliegparasiete (*Muscidifurax raptor*) word in 'n insektarium geteel en is beskikbaar in pakkies van 5 000. Hierdie parasitiese wespe word gereeld by vliegbroei-plekke op die plaas losgelaat.

Die volwasse wesp steek die papie van die vlieg, dood dit in die proses en lê eiers in die papie. Die eiers teer op die dooie vliegpapie en ontwikkel in 'n wesp. Die wespe broei binne 19-21 dae uit en begin dan die soektog na vliegpapies as voedsel en waarin hulle kan eiers lê.

[www.bioinsectsa.com](http://www.bioinsectsa.com)

**BISA bied u:**

Vliegbeheer op die natuurlike manier.  
Langtermyn ekonomiese voordele.  
Minder chemiese besoedeling. 'n  
Bemarkingsvoordeel deur omgewings-  
vriendelike landbouproduksie.

## Omvattende analitiese diens vir Landbouers

Bemlab verskaf 'n betroubare ontledingsdiens en tegniese ondersteuning aan ons kliënte sodat hulle die beste besluite kan neem.

Kenmerke wat Bemlab 'n leidende diensverskaffer maak:

- Betroubare resultate: ISO 17025 akkreditasie vir grond-, blaar-, water- en vrugontledings.
- 'n Monsternemingsdiens: Grond-, blaar- en watermonsters word namens kliënte geneem teen bekostigbare fooie.
- Tegniese ondersteuning: Aanbevelings en tegniese advies word op aanvraag verskaf deur twee grondkundiges, 'n chemikus en kundiges wat grondkartering doen.
- Gerieflikheid: Spesiale monstersakkies en gerieflike vervoeropsies van oral in die land word kosteloos aangebied.
- 'n Omvattende ontledingsdiens: Fulvien- en humiensuurontledings, plantpatologie, aalwurmontledings, asook grondmikrobiologie word verskaf.
- Kliëntediens: 'n Kombinasie van vriendelike ontvangspersoneel, 'n toegewyde span en vinnige omdraaiing verseker kliënte-tevredenheid.
- Goeie pryse: Koste word fyn bestuur sodat kliënte die waarde wat gereelde analises toevoeg, kan benut.

# DIT IS HOE ONS 'N GROEIENDE BEVOLKING GAAN VOED

## ! VINNIGE BEVOLKINGSGROEI

## VOEDSELPRODUKSIEBEDREIGING

### ONS PROBLEEM

Teen **2025** sal daar **4 MILJOEN** meer monde wees om te voed.

Dit is **7 MILJOEN** meer as **2010**.

**3427** babas word elke dag gebore, dit is **3** meer monde om te voed elke minuut.

<https://populationpyramid.net/south-africa/2025/>

<https://www.statssa.gov.za/publications/P0302/P03022015.pdf>

Klimaatverandering

Beperkte en krimpende hulpbronne

Plae

20 jaar van produksie op meer as 2,5 miljard hektaar wêreldwyd  
**GEEN NADELIGE GEVOLGE GEDOKUMENTEER**

Gloabaal in 2016 het 18 miljoen boere in 26 lande 185,1 miljoen hektaar GM-gewasse geplant. (ISAAA,2016).

Sedert 1996 is die gebruik van plaagdoders met 581,4 kg aktiewe bestanddeel verminder en die omgewingsimpak gemeet deur die omgewingsimpak-kwasiënt (EIK-) aanwyser, het met 18,5% gedaal. (Brookes & Barfoot)

## GM-GEWASSE

### Plantvariëteite wat die volgende bied:

- Groter oes
- Doeltreffender gebruik van hulpbronne
- Insekverdragsaamheid
- Onkruidoderverdragsaamheid
- Groter biodiversiteit
- Verhoogde opbrengs

Beter saad help boere om **meer te produseer, terwyl hul minder gebruik**

### DIE OPLOSSING

## WAT KRY JY?

### Voordele van GM-gewasse:

Verhoogde voedselsekerheid

Verhoogde volhoubaarheid

Verminderde kweekhuysgasse

Afname in plaag- en onkruidodergebruik

### GENOEG GESONDE VOEDSEL

## Kuilvoer Kultivars

### LS 8537

Medium lang groeiseisoen baster  
Uitstekend vir kuilvoer  
Goeie agronomiese eienskappe  
Wyd aanpasbaar

## Kwaliteit en Diens

### LS 8518

Medium groeiklas  
Hoë potensiaal baster  
Baie goeie agronomiese balans  
Wye aanpasbaarheid  
Uitstekende opbrengs

## 'n Goeie keuse vir kommersiële sowel as kuilvoer kultivars

### LG 3607 Y

Vinnige baster  
Uitstekende opbrengs in sy groeiklas  
Baie goeie staanvermoë  
Stabiele baster  
Droog vinnig af

Die keuse van kultivars lê in basiese beginsels nl.

- Omgewing
- Plantdatum
- Plantpopulasie
- Opbrengs

### LS 8538 R

Vinnige afdroging  
Goeie agronomiese balans  
Wyd aanpasbaar  
Baie goeie staanvermoë  
Hoë opbrengs

Die keuse van 'n kuilvoer kultivar gaan oor die graan-plant verhouding met goeie graan opbrengs. Basters met hoë opbrengs soos LS 8537, LS 8518 of LG 3607 Y, is gewilde groeiklas basters. Toleransie tot plant- en kopsiektes, speel 'n groot rol in die sukses van opbrengs. Maak 'n ingeligde kultivar keuse met die ondersteuning en bystand van kundiges en kontak Link Seed (PTY) Ltd vandag.

## Uitstekende Sojaboon Kultivars vir Wisselbou

### LS 6240 R

Uitstekende staanvermoë  
Aangepas by wye en nou rye  
Goeie peulhoogte vir 'n vinnige groeiklas  
Uitstekende opbrengs potensiaal

### LS 6146 R

Wye aanpasbaarheid en goeie opbrengsvermoë  
Goed aangepas in veral die koel en gematigde dele  
Goeie staanvermoë en peulhoogte

### LS 6248 R

Medium—Vinnige kultivar met wye aanpasbaarheid  
Goed aangepas in koel tot gematigde gebiede  
Goeie staanvermoë en peulhoogte

\* Roundup Ready ® is 'n geregistreerde handelsmerk en gelisensieer deur Monsanto Technology LLC.

# SENDING PREDATORS BACK TO NATURE

- E-Shepherd is a novel way to control predator attacks on livestock.
- our philosophy is to change the behavior of predators in such a way that it would rather resort to its original diet and leave livestock in peace
- E-Shepherd is a new technology that monitors the movement of sheep.
- If the movement of the animal falls outside of a range of pre-set parameters (e.g. the sheep starts to run) the unit goes into emergency mode. This activates an alarm that affects the central nervous system of the predator and deters the predator from attacking the sheep
- E-Shepherd is thus a truly "green" product
- The device is a non-lethal, non-harmful way to prevent losses of livestock
- It is a robust, cost effective and flexible system that adapts to different conditions

# BIG SPACE SOLUTIONS FOR BIG IDEAS

## 9-TO-5 SPACE SOLUTIONS

At Big Box Containers we give our clients what they need, when they need it. From basic site offices to permanent work space solutions with all the bells and whistles - your Big Box office is a phone call away.

## FOR RENT

Big Box Offices and Stores are available for rent on a short-term or long-term basis, offering our clients a solution that will fit their needs and their pockets. All our units are wind and water tight and in tip-top shape.

For more permanent solutions, Big Box also offers new and refurbished containers for sale. Our trained sales consultants will advise you on the correct installation requirements, so you won't be left out in the cold. We also have a large fleet of refrigerated units.

## BIG BENEFITS

### SPACE SAVER

Big Box Offices and Stores instantly increases your on-site office and storage capacity, while freeing up valuable internal space.

### MONEY SAVER

Why build or extend an office or storage facility when you can get the same quality neatly boxed, for less.

### ON THE GO MOBILITY

Moving premises? Take your Big Box with you. It's that easy!

# Michelin Ultraflex range

Michelin Ultraflex technologies protects the soil of your farm and reduces your operating costs.

## How moist is your soil? | Sensetion single-pack

Use the Sensetion single-pack to measure soil moisture and use your smartphone or computer for the rest.

The Sensetion system is easy to install and consists of a monitor placed in the field and an app either downloaded to your smartphone or via the internet to your desktop.

NET CONSULTANTS - 082 560 8427

### Benefits of the system include

- Optimal irrigation advice for all your crops
- Current soil moisture status of the field
- Anytime, anywhere access on your smartphone
- Easy to install with installation set
- High quality design with smart sensors inside
- Powered by solar energy
- Includes lifetime data and software subscription

### Functional characteristics

- Height 141 cm
- Measuring range 25 cm
- Measuring depth 30 cm
- Integrated screw point
- Integrated data logger
- Including solar panel
- Communication through GPRS quad-band modem and SIM card

# 4CROP

## PROTECT YOUR CROPS Extended width crop cover

4Crop defines the 'Crop Protection Market', it is an ideal choice for farmers protecting a wide range of crops and soils from climate change and environmental impacts. 4Crop fabric is a non-woven spunbond material, **NEWLY** available in extended widths. *Saving you Time, Money and Labour.*

### 4CROP FABRIC IS:

- Physically strong
- Abrasive resistant
- Combined with an open structure to optimize water and air flow
- Supports plant growth
- Reduces insect and other variable conditions
- Good greenhouse affect (light transmission)

### 4CROP SUPPORTS THE FARMER WITH A RANGE OF APPLICATIONS

- Open fields: 17gsm or 30gsm, extended (welded) widths; 6, 9, 12 or 15 meters wide
- Micro-tunnels: Micro-climates with sufficient vertical space
- Fabric bags: Individual bags for stemmed crops

# Burquip

international

Burquip International has been a leading manufacturer, importer and distributor of high speed trailer and agricultural implement trailer components in the Southern African market for over 25 years.

We offer a wide range of high speed and agricultural trailer components that will serve the unique requirements of each of these markets from one of the three branch outlets within South Africa. Exports to African countries include amongst others Namibia, Botswana, Zimbabwe, Mozambique, Zambia and Malawi. Burquip's axle manufactured standard length trailer axles are readily available from outlets and any custom order or large quantity order can be supplied within 10 days from receipt of order. Burquip's sales representatives are trained to assist you with your enquiries and will also prepare quotations on your request.

# Get connected to the farmer... just a click away!

If you're not advertising on the AGRIFOODSA.INFO website yet, you need to get right on it!

With improved functionality and enhanced design, it promises to be a fundamental tool for farmers and enthusiasts of the agricultural and secondary industries in South Africa.

The new website affords the user the opportunity to read and download the AGRIFOODSA Suppliers Guide Magazine, offering additional exposure to our print advertisers.

There are advertising options to meet everyone's needs. Possibilities range from premium directory listings to banner adverts on the HOME page. All major players in Agri and food are able to get incredible coverage and marketing benefits at very reasonable prices.

Advertisers who appear in our Suppliers Guide have the opportunity to book premium listings on our website at a fraction of the standard price.

As part of the AGRIFOODSA.INFO website, advertisers will enjoy the following brand promotion:

- Google Search Engine Optimization of the AGRIFOODSA.INFO website;
- Advertising of the AGRIFOODSA.INFO website in various other Agricultural publications;
- Coverage on our Social Media pages; and
- Exposure through our monthly newsletter which will be e-mailed to 18,000 links across Southern Africa.

We are also presenting website advertisers with the opportunity to have broadcasts, special offers or short articles on new products and/or services posted to our brand-new NEWS Page.

We are driven by performance,  
passionate about our clients  
and focussed on achieving results.

Look out for the fresh, innovative AGRIFOODSA.INFO website LIVE!

For more information or to advertise, contact us today.
